Argyle Diamond Mine Participation Agreement – Indigenous Land Use Agreement

Argyle Diamonds Limited and Argyle Diamond Mines Pty Limited

Traditional Owners

and

Kimberley Land Council Aboriginal Corporation
In this paper is the agreement between Argyle, Traditional Owners for the mine area and the Kimberley Land Council. This paper carries all the rules to make sure that we treat each other properly. It has taken many years and a lot of hard work to make this agreement. We are very proud to sign it. With this agreement as a start, we can make the future better for Traditional Owners and Argyle.

There are two parts to the agreement between Argyle and Traditional Owners. This part is called the ILUA. It talks about the history between Argyle and Traditional Owners and how Argyle will recognise Traditional Owners with money and other benefits. It talks about Traditional Owners agreeing to Underground Mining and other operations by Argyle and how Traditional Owners can get Country back.

The rules in this part of the agreement are very hard to change. The other part of the agreement is called the Management Plan Agreement. The rules in the Management Plans can change if Argyle and Traditional Owners agree.

The English in these agreements is very high. It was written in a High English that lawyers and the courts can understand. To make it easier for people who don’t know this kind of English, we have put in some plain English boxes to help people understand.

This ILUA is made up of 20 different parts called clauses. Each clause talks about a different idea. There are plain English boxes at the start of each clause to help you understand what it is talking about. At the back of the agreement are 20 different parts called schedules. Schedules give people extra information about what is in the agreement. The schedules have maps, old agreements and other things that help people understand the agreement. At the start of every schedule there is a plain English box to help you understand what is in it.

The plain English boxes don’t say everything that is in a clause – only the main ideas.

For people who can’t read, we have made a video that tells people about the main things in this agreement between Argyle and Traditional Owners.

Recitals – Intentions

A. Argyle Diamonds Limited is the owner of the Argyle Diamond Mine. Argyle Diamond Mines Pty Limited is the manager of the Argyle Diamond Mine. Together they hold the Granted Argyle Interests and operate the Argyle Diamond Mine in the Agreement Area.

B. The TOs hold Traditional Rights in the Agreement Area.

C. The intention of Argyle and the TOs in entering this agreement, is to renew and refresh the relationship between Argyle and the TOs and to provide a transparent basis for that relationship to continue for the life of the Argyle Operations.

D. The parties intend this agreement to be an Indigenous Land Use Agreement (Area Agreement) covering the Agreement Area.

The parties agree

in consideration of, among other things, the mutual promises contained in this agreement:

1 Reconciliation

Argyle and the Traditional Owners recognise what has happened before and say how they came together openly and honestly to make a new future in this agreement.

The historical relationship between Argyle and the TOs

1.1 Argyle and the TOs acknowledge their shared history which forms the background to this agreement.

Agreement making process

1.2 The parties acknowledge that this agreement has been made as a result of good faith negotiations by each party. A summary of those negotiations and the role of each party is set out in the Agreement Making Process at Schedule 1.
2 Recognition

Here Argyle says to the Traditional Owners: “We recognise you are the people for this country, and we recognise your rights”.

The Traditional Owners say to Argyle: “We recognise your rights that come from the whitefella law”.

And the Traditional Owners say to each other: “We all have rights in this country – we can’t push anyone out”.

Argyle recognises TOs and Traditional Rights

2.1 Argyle recognises:
   (a) that the TOs are the traditional owners of the Agreement Area in accordance with traditional Aboriginal laws and customs; and
   (b) the TOs’ Traditional Rights.

TOs recognise the Argyle Interests

2.2 The TOs recognise that:
   (a) the Granted Argyle Interests, the Diamond Act and the Diamond Agreement are valid, effective and enforceable; and
   (b) Argyle may exercise all rights conferred and comply with all obligations imposed under the Granted Argyle Interests, the Diamond Act and the Diamond Agreement subject only to the provisions of this agreement and the Law.

TOs recognise each other

2.3 The TOs:
   (a) recognise that each Estate Group holds the Traditional Rights in the Agreement Area;
   (b) agree not to challenge the Traditional Rights of any other Estate Group; and
   (c) recognise each others rights and obligations under this agreement.
3  Consent to and support for mining

Here the Traditional Owners and Argyle say, "It is a good thing for everyone if
diamond mining keeps going and makes money."

Traditional Owners agree that Argyle can keep mining the Open Pit and make a
decline tunnel and Underground mine. Traditional Owners agree that Argyle can
look around for more diamonds and dig them up in new areas, so long as Argyle
follows the rules in this agreement.

The Traditional Owners promise they will not block Argyle from getting any
licence or permission from Government, that Argyle needs to do mining.
Traditional Owners promise they will sign any papers to help Argyle get mining
permission and to do mining.

There is an area in the Argyle Mining Lease called the Current Mining Area
where Argyle is already mining or plans to mine soon. You can see a map of this
area at the back of this agreement – in Schedule 12. Traditional Owners agree,
that this area is cleared for mining – Argyle can do anything in that area for
mining.

Continuation of the diamond mine

3.1 Argyle and the TOs agree that this agreement is a strong agreement that respects
and protects the TOs’ interests in the Agreement Area, and provides substantial
benefits to the TOs and Aboriginal people in the East Kimberley region. Argyle
and the TOs agree that it is in the best interests of the parties if Argyle is able to
continue to operate a commercially sound diamond mining business.

Consent to and support for mining

3.2 The parties consent to, support, and will not object to Argyle conducting the
Argyle Operations, including:

(a) Open Pit Mining Operations;
(b) the Exploratory Decline;

3.9 The maps in Schedule 2 of Management Plan 1 show all of the Aboriginal Sites within the Agreement Area of which Argyle has knowledge as at the date of this agreement.

**Costs**

3.10 To the extent that the costs of compliance by the TOs with clauses 3.4 and 3.6 are not otherwise provided for in clauses 6.25 to 6.27 of this agreement or clause 4.68 of the Argyle Diamond Mine Participation Agreement – Management Plan Agreement, Argyle will agree to pay the TO’s costs of compliance with those clauses provided that the purpose of the expenditure, and the costs, are reasonable.
4 Historical Benefits

Before Argyle started mining, it made an agreement with some Aboriginal people. This was called the Good Neighbour Agreement.

Later on, Argyle started to provide funding to the Woolah and Warmun Communities. This was called the Good Neighbour Programme.

In 1995 Argyle agreed to pay money to those old people who signed the Good Neighbour Agreement. This was called the Signatories Payments.

All of these old arrangements are in Schedule 4 at the back of this agreement. Schedule 4 also says how much money Argyle paid under these arrangements.

Here Argyle says: “When we made these arrangements, we thought we were talking with all the Traditional Owners. Now we understand that before, we only talked to some Traditional Owners. We want to make this new agreement with all the right people”.

Everyone agrees that these old arrangements, the Good Neighbour Agreement, the Good Neighbour Programme and the Signatories payments should finish up. This new agreement will take their place.

Historical arrangements

4.1 The following arrangements are operative immediately prior to the Commencement Date:

(a) Good Neighbour Agreement

(1) The Good Neighbour Agreement was entered into by John Toby, George Dixon, Evelyn Hall, Peggy Patrick and Argyle in 1980.

(2) A copy of the Good Neighbour Agreement is in Schedule 4.

(3) Over the life of the Good Neighbour Agreement, Argyle has provided the Mandangala Community with the amounts of money set out in Schedule 4.

(b) Good Neighbour Programme

(1) The Good Neighbour Programme was formed by a commitment given by Argyle in letters to the Woolah and Warmun Communities dated 6 July 1981 and the letters from the Chairman of the Woolah and Warmun Communities to the General Manager, Ashton Joint Venture on 18 July and 18 August 1981 respectively.

(2) A copy of each of these letters is in Schedule 4.

(3) Over the life of the Good Neighbour Programme, Argyle has provided the Woolah and Warmun Communities with the amounts of money set out in Schedule 4.

(c) Signatories Payments

(1) These payments are explained in the letter from Argyle to John Toby, George Dixon, Evelyn Hall and Peggy Patrick dated 1 December 1995.

(2) A copy of this letter is in Schedule 4.
(3) Argyle has made all the payments consistent with the letter in Schedule 4 between 1995 and immediately prior to the Commencement Date.

(d) Decline Bonus

(1) This commitment is explained in the letter from Argyle to Traditional Owners dated 28 May 2003.

(2) A copy of this letter is in Schedule 4.

(e) The arrangements referred to in clauses 4.1(a), (b) and (c) and (d) are the Historical Arrangements.

Background

4.2 Argyle entered into the Historical Arrangements on the understanding, derived from consultations with Aboriginal people and reports from the WA Museum, that the parties and communities involved in the Historical Arrangements were the traditional owners of the land contained in the Argyle Interests.

4.3 Argyle acknowledges that all TOs wish to formally participate in the relationship with Argyle and that this is a broader group of traditional owners than those people who are a party to the Historical Arrangements.

Termination and Replacement of Historical Arrangements

4.4 In the event that:

(a) all of John Toby, George Dixon, Evelyn Hall and Peggy Patrick execute this agreement, then as from the date at which this agreement is executed by the last of those persons, the Good Neighbour Agreement is terminated and replaced by the commitment contained in clause 5.2(a); or

(b) not all of John Toby, George Dixon, Evelyn Hall and Peggy Patrick have executed this agreement, then the Good Neighbour Agreement continues in full force and effect according to its terms and Argyle has no obligation to make the payments set out in clause 5.2(a) and 5.4(a).

4.5 The parties agree that as from the Commencement Date the Good Neighbour Programme is terminated and replaced by the commitments contained in clause 5.2(b) and (c).

4.6 In the event that:

(a) any of John Toby, George Dixon, Evelyn Hall and Peggy Patrick execute this agreement, then as from the date at which that person executed this agreement, the Signatories Payments to that person cease and that person will receive payments in accordance with clauses 6.1 to 6.8; or

(b) any of John Toby, George Dixon, Evelyn Hall or Peggy Patrick have not executed this agreement, then the Signatories Payments to that person who did not execute this agreement continue in accordance with the letter dated 1 December 1995 referred to in clause 4.1(c), and Argyle has no obligation to make the payments set out in clauses 6.1 to 6.8 to that person.
Support for Local Aboriginal Communities

Here Argyle says how much it will pay to communities so everybody can know how much communities will get.

Right now, Argyle gives $309,300 to Mandangala. Argyle gives $116,610 to Woolah and $288,578 to Warmun. Argyle will keep on paying this money and will top it up each year to keep up with things costing more.

Argyle is also going to pay $45,000 to Juwulinpany and $25,000 to Crocodile Hole. Argyle will top up this money as well.

5.1 Argyle intends to provide financial assistance to Local Aboriginal Communities. The arrangements with Local Aboriginal Communities referred to in this clause 5 are set out in this agreement to ensure that there is transparency as to the benefits that Argyle will be providing to communities and the benefits to be provided by Argyle to TOs.

5.2 Argyle currently provides and will continue to provide the following financial assistance to the following Local Aboriginal Communities:

(a) subject to clause 4.4(b), Mandangala Community - $309,300 per year (indexed for CPI from 1 January 2004);

(b) Woolah Community - $116,610 per year (indexed for CPI from 1 January 2004); and

(c) Warmun Community - $295,726 per year (indexed for CPI from 1 January 2004).

(Note: these sums are equal to the 2004 payments payable to these Local Aboriginal Communities under the Good Neighbour Agreement and the Good Neighbour Programme)

5.3 Argyle also intends to provide the following financial assistance to the Local Aboriginal Communities set out below:

(a) Juwulinpany Community - $45,000 per year (indexed for CPI from 1 January 2005); and

(b) Crocodile Hole Community - $25,000 per year (indexed for CPI from 1 January 2005).

5.4 Argyle will pay the sums set out in:

(a) clause 5.2(a), subject to clause 4.4(b), to the Mandangala Community on the first Business Day of the next calendar year after the Commencement Date and annually thereafter until Closure. The commitment by Argyle to make the payments to the Mandangala Community until Closure is to ensure consistency with the terms of the former Good Neighbour Agreement;

(b) clause 5.2(b) and (c) to the Woolah Community and the Warmun Community on the first Business Day of the next calendar year after the Commencement Date and annually thereafter until 6 months after the Cessation of Production Operations; and

(c) clause 5.3 to the Juwulinpany Community and the Crocodile Hole Community on the Commencement Date and annually thereafter on the
first Business Day of the next calendar year until 6 months after the Cessation of Production Operations.

5.5 The payments referred to in clauses 5.2 and 5.3 will be made by depositing the annual sum in the bank account nominated by the community council of the relevant Local Aboriginal Community to Argyle in writing from time to time, at least 5 Business Days before the date for payment set out in clause 5.4.

6 TO Benefits

This clause talks about money that Argyle will give to Traditional Owners.

Argyle will pay money to the old people who signed the Good Neighbour Agreement, or their kids if they have passed away. Argyle will also pay money to other senior Traditional Owners. If these old people pass away, Argyle will keep paying this money to their kids.

Argyle will pay this money every year to these old people or their kids until mining finishes up.

Argyle will also pay money into two Trusts for Traditional Owners.

The first trust is called the Special Purposes Trust. The Trust will hold money that is split up between the seven family groups who are Traditional Owners for the mine area.

The second trust is called the Charitable Trust. This Trust holds money for future generations. Some money from the Charitable Trust can go for things to help everyone in the East Kimberley.

Trust Payments

6.9 Argyle will make the Trust Payments for the benefit of the TOs on the conditions set out in clauses 6.10 to 6.24.

6.10 The obligation of Argyle to make the Trust Payments does not commence until Registration has occurred.

6.11 The TOs will be entitled to receive the benefit of the Trust Payments from the Registration Date until the date 6 months after the Cessation of Production Operations calculated from 1 July 2004.

6.13 As soon as practicable after the execution of this agreement, Argyle will execute a Charitable Trust Deed and a Special Purposes Trust Deed substantially in the forms set out in Schedules 10 and 11 and will otherwise do all things necessary to establish the Charitable Trust and the Special Purposes Trust.

Change in International Accounting Standards

6.14 If there is a change in the International Accounting Standards which directly causes a significant increase or decrease in the real value of the Trust Payments, then:

(a) any party may, by written notice to the others, notify the other parties of the details of the change in International Accounting Standards and the effects that the party considers the change in International Accounting Standards has on the real value of the Trust Payments; and

(b) the affected parties must promptly meet and begin (or if they already have begun, continue) negotiating in good faith, with a view to reaching agreement on what changes, if any, should be made, in order to maintain the real value of the Trust Payments as assessed on the day before the relevant change to the International Accounting Standards.

6.15 If the relevant parties fail to reach agreement as to the matters set out in clause 6.14(b) within 2 months from the date of the giving of the notice referred to in clause 6.14(a), then the dispute can be referred by any relevant party to an Independent Expert for determination by either party issuing a notice to the other party including a statement of the matters to be resolved.

6.16 Within 5 Business Days of issue by a party of a notice under clause 6.15, the parties must agree on the person who is to be the Independent Expert and if the parties cannot reach agreement within this time period, then the parties will, as soon as practicable, request the President of the International Accounting Standards Board to appoint an Independent Expert.

6.17 Any person nominated to act as an Independent Expert will be required to fully disclose any interest or duty prior to that the person's appointment. Independent Expert’s knowledge by reason of the Independent Expert’s appointment and carrying it out.

6.19 Each party must provide to the Independent Expert (with a copy to the other party) a written submission, incorporating all documentation, information (confidential or otherwise), materials and statements of persons relevant to the controversy or dispute.

6.20 The written submissions referred to in clause 6.19 must be provided to the Independent Expert within 20 Business Days (or such other period as agreed by the parties) of the appointment of the Independent Expert.

6.21 It will be a term of the Independent Expert’s appointment that the Independent Expert will be required to make a determination of the dispute within 20 Business Days of the Independent Expert receiving from both parties the written submissions referred to in clause 6.19 or such further period as the parties may agree. If any party considers that the dispute is of an urgent nature and needs to be resolved within a shorter period, then that party may require the period of 20 Business Days to be reduced to such period as that party may reasonably require, being not less than 5 Business Days.

6.22 The parties agree that the Independent Expert’s decision in respect of the dispute notified under 6.15 will be final and binding upon the parties.

6.23 The Independent Expert will act as an independent expert, not as an arbitrator.

6.24 The fees and expenses of the Independent Expert will be borne in such proportion and in such manner as the Independent Expert decides, having regard to all relevant circumstances. One of the relevant circumstances will be the position taken by each party at the conclusion of negotiations under clause 6.14.

**Administration Payments**

6.25 Subject to clause 6.27, Argyle will make annual payments to the trustees of the Charitable Trust and the Special Purposes Trust for the following purposes:

(b) to the trustee of the Special Purposes Trust, for the purpose of assisting with the establishment and implementation of the Special Purposes Trust.

6.26 The annual payments to be made by Argyle in accordance with clause 6.25 will be in the sums set out in the “Total Cost” column of Schedule 16, which sum will be allocated as follows:

(a) 80% to the trustee of the Charitable Trust; and

(b) 20% to the trustee of the Special Purposes Trust.

Subject to consulting with the trustees of the Charitable Trust and the Special Purposes Trust respectively, Argyle may vary from time to time the allocation percentages referred to in (a) and (b) above.

6.27 The Administration Payments will be paid as follows:
(a) the 2004 payment will be paid within 10 Business Days of the establishment of the Charitable Trust and Special Purposes Trust respectively;

(b) thereafter, the annual Administration Payments will be paid to the trustees of the Charitable Trust and Special Purposes Trust respectively, on 1 January of each year until the Cessation of Production Operations or 1 January 2008, whichever is the earlier.

Decline Bonus

6.28 Pursuant to the Decline Bonus Letter, Argyle agreed to pay the Decline Bonus on the terms and conditions set out in the Decline Bonus Letter.

6.29 In the event that the Decline Bonus becomes due and payable by Argyle in accordance with the terms of the Decline Bonus Letter, the TOs have requested, and Argyle has agreed, to pay the Decline Bonus as follows:

(a) $300,000 to the Charitable Trust;

(b) $100,000 to the KLC, which sum must be held by the KLC on trust for the use and benefit of Miriuwung people;

(c) $100,000 to the KLC, which sum must be held by the KLC on trust for the use and benefit of the Malarngowem Native Title Claimants, for the purpose of assisting the Malarngowem Native Title Claimants to obtain access agreements with pastoralists in the Malarngowem Claim Area.

6.30 With respect to the payment referred to at:

(a) 6.29(a), Argyle must request the trustee of the Charitable Trust to allocate the whole of the payment to the Sustainability Fund;

(b) 6.29(b), the KLC must distribute the sum held on trust in accordance with the written directions of all those TO Representatives who are Miriuwung. For the avoidance of doubt, the TO Representatives who are Miriuwung, are those TO Representatives appointed by the Mandangala/Tiltuwam dawang (dawaam) comprising the Toby, Dixon, Hall and Curtin families, the Bilbirdjing dawang (dawaam), Dundun dawang (dawaam) and Balaburr dawang (dawaam);

(c) 6.29(c), the KLC must distribute the sum held on trust in accordance with the written directions of the named applicants of the Malarngowem Native Title Claim.

Miscellaneous

6.31 Argyle will not be bound to enquire into or be responsible for the manner in which any payments made under this clause 6 are applied.
7 Grazing Lease

Here Argyle says to the Traditional Owners: “We will hold a grazing lease in trust for you so that the Courts can recognise your full strength native title in the grazing lease land.”

Argyle will hold that lease on Trust until 18 months after mining has finished up. Then Traditional Owners can ask the State to give the Traditional Owners Freehold Title over the Grazing lease land.

Traditional Owners have to tell Argyle if they want to run cattle on this lease themselves, before the mine finishes. Argyle will let them run it if they can do it properly.

Surrender of Grazing Lease

7.1 Argyle will surrender the Grazing Lease upon completion of all of the following conditions:

(a) Registration has occurred;

(b) the State has consented to the surrender of the Grazing Lease by Argyle and all Ministerial consents required under the Diamond Act, the Diamond Agreement, the Land Administration Act 1997 (WA) and any other Law have been provided to Argyle;

(c) the State has agreed to grant Argyle a replacement lease which meets the conditions in clause 7.2 and is otherwise in a form acceptable to Argyle and the TOs, at the same time as Argyle surrenders the Grazing Lease;

(d) the current sub-lessee of the Grazing Lease has consented to the surrender of the Grazing Lease and the grant of a replacement lease in accordance with this clause 7; and

(e) any other conditions or requirements of the State are met.

Grant of Replacement Lease

7.2 At the same time as the surrender of the Grazing Lease by Argyle, it is proposed that the State will grant Argyle a lease under section 79 of the Land Administration Act 1997 (WA) to hold on trust for the benefit of the TOs under the Land Trust and subject to the terms and conditions of this agreement and which meets the following criteria:

(a) the boundaries are identical to the boundaries of the Grazing Lease;

(b) the purpose is for grazing purposes only;

(c) the conditions are consistent with the conditions of a pastoral lease under the Land Administration Act 1997 (WA);

(d) the term is for 21 years with an option to renew for a further 21 years; and

(e) the form of the lease is otherwise acceptable to Argyle and the TOs.

7.3 For the avoidance of doubt, the consents of the parties under clause 3 includes the parties’ consent to the grant of the Replacement Lease.
Replacement Lease to be held on trust

7.4 As soon as practicable after the execution of this agreement, Argyle will execute the Land Trust substantially in the form set out in Schedule 13 and will otherwise do all things necessary to establish the Land Trust.

Management of the Replacement Lease

7.5 While the Replacement Lease is held on trust by Argyle or any other trustee under the Land Trust, the TOs acknowledge and consent to the following conditions applying to dealings with the Replacement Trust by the Trustee:

(a) The Trustee may sublease the Replacement Lease or any part or interest therein to other persons on such terms and conditions as the Trustee sees fit but for a maximum term of 5 years. In this respect, the Grazing Lease is currently subleased to Baldy Bay Pty Ltd. The parties acknowledge that the Trustee intends to maintain a subleasing arrangement with Baldy Bay Pty Ltd once the Replacement Lease is granted and the consent of Baldy Bay Pty Ltd required under clause 7.1(d) will be sought on that basis.

(b) If the TOs wish to operate the Replacement Lease they may make a request to this effect and must satisfy the Trustee that the TOs have sufficient capital and the business and pastoral management expertise necessary to operate the Replacement Lease. In forming a decision under this clause the Trustee will consider:

1. the TOs’ demonstrated ability to operate other Aboriginal controlled pastoral operations;

2. if the TOs have guaranteed access to sufficient operating capital; and

3. if the TOs have developed a viable management plan for the management of the Replacement Lease.

(c) The Trustee may, subject to the State’s consent, grant the TOs a sublease of the Replacement Lease:

1. if the Trustee is satisfied, within the Trustee’s absolute discretion, that the TOs are capable of operating the Replacement Lease;

2. only upon the expiry of any sublease or management agreement which is in force at the time of the request under clause 7.5(b) and formal termination of that sublease under the terms of that sublease agreement and subject to the sublessee having been given 12 months notice in writing of the Trustee’s intention to terminate the sublease; and

3. on such terms and conditions as the Trustee sees fit.

Future Acts

7.6 The parties agree that:

(a) the consents and procedures set out in this clause 7, including the consent of the parties to the grant of the Replacement Lease constitute:

1. statements for the purposes of s24EB of the NTA; and
(2) all consents and procedures relevant to the grant of the Replacement Lease and the doing of Future Acts necessary or incidental to the grant of the Replacement Lease; and

(b) Subdivision P of the NTA does not apply to those Future Acts.

**Support for freehold title**

7.7 Argyle acknowledges that upon Closure, the TOs propose to seek from the State the conversion of the Replacement Lease to a freehold title. Argyle will provide active non-financial support for the TO’s proposal and indicate to the State that Argyle supports the conversion of the Replacement Lease to a freehold title upon Closure.

### 8 Native Title

**Here we talk about what everyone has to do so the Courts can recognise full strength native title over the Grazing Lease land.**

*Argyle and the Traditional Owners will go together to the State and the Federal Court and ask them to recognise the Traditional Owners’ native title rights on the Grazing Lease land.*

*The Traditional Owners agree that they will not put a native title claim over any other part of Argyle’s mining lease until the mine is all shut down.*

**Recognition of Native Title over the Grazing Lease Area**

8.1 The parties wish to secure the recognition of Native Title Rights over the Grazing Lease Area, and will take the following steps to achieve this:

(a) Argyle will apply for Registration of this agreement (in accordance with clause 12);

(b) upon Registration, Argyle will surrender the Grazing Lease (in accordance with clause 7);

(c) upon surrender of the Grazing Lease, the Replacement Lease will be granted to Argyle (in accordance with clause 7);

(d) the Replacement Lease will be held by Argyle on trust for the TOs (in accordance with clause 7);

(e) the TOs will then lodge the TO Claim (in accordance with clause 8);

(f) the parties will seek a Consent Determination of Native Title Rights (in accordance with clause 8); and

(g) the parties will present submissions to the Federal Court (in accordance with clause 8) as to why any previous extinguishment of Native Title Rights should be disregarded and a determination of Native Title should be made in the form of the Consent Determination.

**Process Steps**

8.2 The parties acknowledge that:

(a) native title may have been wholly or partially extinguished in the land contained in the Grazing Lease; and
(b) a Court may disregard this extinguishment in certain circumstances if section 47 of the NTA applies.

8.3 The parties agree that:

(a) they will follow the process set out at clauses 7 and 8;

(b) they will jointly consult with the State with a view to negotiating a determination of native title in the form of the Consent Determination;

(c) the TO Claim will be lodged in accordance with clause 8.4 and the parties will make submissions to the Federal Court that section 47 of the NTA applies to the land contained in the Replacement Lease with the effect that:

(1) any extinguishment of native title in relation to that land must be disregarded; and

(2) native title may be recognised in the form set out in the Consent Determination.

8.4 The TOs and the KLC will do all things and execute all documents necessary to lodge the TO Claim substantially in the form set out in Schedule 5 which claim must be lodged with the Federal Court within 90 days of the grant of the Replacement Lease or such later date as is agreed by Argyle and the TOs.

8.5 Within 28 days of the lodgement of the TO Claim in the Federal Court, or such later date as is agreed by Argyle and the TOs, the TO Applicants, the KLC and Argyle will, subject to the consent of the State, file with the Federal Court:

(a) a notice of motion seeking a determination of native title in the form of the Consent Determination; and

(b) a minute of proposed Consent Determination substantially in the form set out in Schedule 9.

8.6 With respect to the establishment of the TO PBC:

(a) The KLC and the TOs will, prior to the lodgement of the TO Claim, establish a TO PBC within the meaning of section 59 of the NTA, for the purpose of the Consent Determination.

(b) The TO PBC will be a corporation governed by the Aboriginal Councils and Associations Act 1976 (Cth) and the Native Title (Prescribed Body Corporate) Regulations 1999 (Cth).

(c) The original rules of the TO PBC must be in a form agreed by Argyle and the TOs prior to the lodgement of the TO Claim. Argyle will not unreasonably withhold its agreement.

8.7 Argyle, the TOs and the KLC will each do all things necessary to:

(a) support the lodgement and registration of the TO Claim;

(b) obtain the State’s consent to the making of the Consent Determination; and

(c) support the making of the Consent Determination, including supporting the contention that section 47 of the NTA operates to allow recognition of the native title rights and interests set out in the Consent Determination.
No other native title claims

8.8 The TOs agree that they will not, without Argyle’s consent in writing, lodge a native title determination application and/or seek a determination of native title over any part of the Agreement Area other than the land and waters the subject of the Grazing Lease in accordance with clauses 8.2 to 8.7, until the Completion of Decommissioning.

9 Argyle Interests prevail

Here the Traditional Owners say: “We recognise that you have a right to mine on this land if you follow the rules of white fella law and this agreement. Argyle’s mining rights sit on top of Traditional Owner rights until the mine is finished.”

9.1 The TOs acknowledge that:

(a) Argyle may conduct the Argyle Operations in any manner and at any time which:

(1) Argyle, in its absolute discretion, considers appropriate; and

(2) is in accordance with:

(A) the Law;

(B) the terms and conditions of the Argyle Interests;

(C) all requirements or permissions contained in the Argyle Interests; and

(D) the Management Plans.

(b) The Argyle Interests and all Argyle Operations conducted under 9.1(a) prevail over the Native Title Rights and the Traditional Rights and any exercise of the Native Title Rights and the Traditional Rights.

(c) The existence and exercise of the Native Title Rights and the Traditional Rights do not prevent the conduct of the Argyle Operations or the implementation of any requirements or permissions contained in the Argyle Interests.

9.2 To the extent permitted by Law, the parties intend that the non-extinguishment principle will apply to the grant of the Future Argyle Interests.

9.3 For the avoidance of doubt, any breach of the Management Plans by any party will have no effect upon the efficacy of the consents given in clause 3 of this agreement.
Compensation and claims

Here, it says that Traditional Owners can’t claim any compensation money from Argyle for things that happened in the past. Everyone agrees that the money and other benefits in this agreement are enough compensation for things that happened before. Traditional Owners can’t claim any more.

Full and Final Compensation

10.1 The TOs acknowledge and agree that the Benefits are full and final compensation for the Effects on TO Rights.

No Claim and plea in bar

10.2 The TOs acknowledge and agree that:

(a) subject to clause 10.3, the TOs will not make a Claim against Argyle or the State under any Compensation Right for the Effects on TO Rights; and

(b) if the TOs make a Claim in breach of (a) but not otherwise, Argyle and the State may each plead the terms of this agreement in bar of that Claim.

Permitted Claims

10.3 The provisions of this clause 10.3 are set out in Schedule 20.

Recovery and Set off

10.4 If a Court orders Argyle or the State or both to pay compensation to any TO and/or Aboriginal person for the Effects on TO Rights then:

(a) the TOs acknowledge and agree that Argyle may recover the Benefits from third parties including the trustees of the Charitable Trust and Special Purposes Trust and/or set off the Benefits against any judgement or order:

(1) against Argyle for compensation; and/or

(2) against the State, for compensation, where the State seeks to recover that liability from Argyle; and

(b) the TOs:

(1) indemnify Argyle to the extent of the judgment debt relevant to Argyle;

(2) agree that Argyle will, as the case requires, give the quantum of that recovered sum or set-off to the State, the TO or the Aboriginal person referred to in the judgement or order; and

(3) acknowledge that the TOs have no right to recover that quantum from Argyle.

References to Argyle

10.5 References to Argyle in this clause 10 will be read as including a reference to:

(a) Argyle Diamonds Limited ABN 36 009 102 621;

(b) all Joint Venturers, whether they were Joint Venturers before or after the Commencement Date;
(c) Argyle Diamond Mines Pty Limited ABN 52 008 912 418 and every other person engaged as manager or operator of the Argyle operations by the Joint Venturers, whether before or after the Commencement Date; and

(d) the holder from time to time of an Argyle Interest, whether before or after the Commencement Date.

11 Default Events

Argyle and Traditional Owners agree that Argyle can stop paying money if Traditional Owners break this Agreement.

If Traditional Owners try to block Argyle’s right to mine or claim more compensation or lodge a new native title claim or try to change this agreement Argyle can stop paying money. Argyle can also stop paying money if the Trusts for Traditional Owners are not being run properly or if the agreement stops being registered at the National Native Title Tribunal as an ILUA or if Aboriginal people who are not parties to this agreement are recognised by the Court as having native title rights in the Agreement Area.

If Traditional Owners sort out any problems that happened when they broke the rules, and they start following the rules in this agreement again, then Argyle can start paying money again, if it wants to.

TO Default Event

11.1 If Argyle considers that a TO Default Event has occurred then Argyle may serve a Make Good Notice. The Make Good Notice must include details of the determination that Argyle proposes to make under clause 11.2 in the event that the TO Default Event is not remedied in accordance with the Make Good Notice or otherwise to Argyle’s satisfaction. The Make Good Notice must also include reasons for the proposed determination.

11.2 If within 2 months of the date of the Make Good Notice or such further period as Argyle allows, the TO Default Event is not remedied in accordance with the Make Good Notice or otherwise to Argyle’s satisfaction, or a further TO Default Event has occurred and has not been remedied within that 2 month period, Argyle may, irrespective of whether a Dispute Notice has been served, determine to:

(a) terminate, suspend or reduce the payment of all Monetary Benefits; or
(b) terminate, suspend or reduce the payment of Monetary Benefits to particular Local Aboriginal Communities and/or particular Estate Groups.

11.3 In making the determination referred to at 11.2(a) or (b) Argyle must have regard to the cause of the TO Default Event, in particular whether the TO Default Event is caused by a person or persons not authorised by the TOs and whether the TOs have provided a written declaration from the TO Representatives to Argyle that the person or persons who caused the TO Default Event is not authorised by the TOs.

Dispute Resolution

11.4 Upon receipt of a Make Good Notice, a party may serve a Dispute Notice on Argyle:
(a) disputing that a TO Default Event has occurred;
(b) contending that a TO Default Event has been satisfactorily remedied; and/or
(c) contending that a different determination under clause 11.2 should be made by Argyle.

11.5 Upon the service of the Dispute Notice the provisions of clause 17.1 to 17.8 apply and Argyle must hold any Monetary Benefits withheld under clause 11.2, on trust until the dispute is determined in accordance with this clause 11. Monetary Benefits held on trust, must be distributed within 14 days of the completion of the dispute resolution process under this clause, in accordance with the outcome of that dispute resolution process.

11.6 In the event that the dispute cannot be resolved by mediation, any party may refer the dispute to arbitration and subject to clauses 11.7 to 11.10 below, the provisions of clause 17.9 – 17.13 apply.

11.7 If the matter referred to arbitration is whether a TO Default Event has occurred and the arbitrator determines that a TO Default Event has not occurred, then all payments withheld by Argyle under clause 11.2 become due and payable together with interest on that sum calculated at the rate prescribed for interest on judgement debts from time to time under the Supreme Court Act 1935 (WA).

11.8 If the dispute referred to arbitration is a contention that a different determination under clause 11.2 should have been made by Argyle, the arbitrator must determine whether the determination of Argyle stands or should be amended.

11.9 If the arbitrator finds that the determination of Argyle under clause 11.2 should be amended, the arbitrator must determine whether to:

(a) terminate, suspend or reduce the payment of all Monetary Benefits, and if a determination is made to suspend or reduce the Monetary Benefits payable, make a determination as to the terms of that suspension or reduction; or

(b) terminate, suspend or reduce the payment of Monetary Benefits to particular Local Aboriginal Communities and/or particular Estate Groups, and if a determination is made to suspend or reduce the Monetary Benefits payable to a particular Local Aboriginal Community and/or a particular Estate Group, make a determination as to the terms of that suspension or reduction.

11.10 In making the decision referred to in 11.8 and 11.9 the arbitrator must have regard to:

(a) whether Argyle is able to continue, in whole or in part, with the Argyle Operations;

(b) where Argyle is able to continue Argyle Operations, the duration of the impact of the TO Default Event on Argyle;

(c) the cause of the TO Default Event, in particular whether the TO Default Event is caused by a person or persons not authorised by the TOs and whether the TOs provided the written declaration referred to in clause 11.3;
(d) the amount of any losses, costs, expenses or liabilities incurred and likely to be incurred by Argyle in the future arising, directly or indirectly as a result of the TO Default Event; and

(e) whether having regard to the cause of the TO Default Event, it is just in all the circumstances to terminate, suspend or reduce some or all of the Monetary Benefits payable, or whether it is just in all the circumstances to terminate, suspend or reduce some or all of the the Monetary Benefits payable to particular Local Aboriginal Communities and/or particular Estate Groups.

The subsequent remedying of a TO Default Event

11.11 Subject only to the decision of the arbitrator under clauses 11.8 and 11.9, if at any time, including after mediation or arbitration has occurred under this clause, a TO Default Event is remedied in accordance with the Make Good Notice or otherwise to Argyle’s satisfaction, Argyle may within its discretion, resume payments of Monetary Benefits.

11.12 Nothing in clause 11.11 requires Argyle to pay any Monetary Benefits that were withheld during the period in which the TO Default Event remained unremedied.

12 ILUA registration & support

In this clause, Argyle, the Traditional Owners and the KLC all agree to do everything they can to make sure this agreement is registered by the National Native Title Tribunal as an ILUA. ILUA stands for Indigenous Land Use Agreement.

Intention of the parties

12.1 The parties intend that this agreement will be registered as an Indigenous Land Use Agreement (Area Agreement) under Part 2, Division 3, subdivision C of the NTA in respect of the Agreement Area.

KLC Certification

12.2 The KLC will execute the authorisation certificate set out in Schedule 6 of this agreement at the same time as the execution of this agreement.

Registration Application

12.3 The parties agree that Argyle will submit to the Registrar a Registration Application in the form set out in Schedule 7.

Consent, support, no objection

12.4 The parties consent to, will do all things necessary to support and will not object to the registration of this agreement as an ILUA by the NNTT under the NTA. If any party becomes aware of an objection having been lodged in relation to the Registration Application that party will notify the other parties the parties must do all things within their power and necessary and incidental to ensure that the objection is withdrawn.
13 Transfer and Novation

Here we say what happens if Argyle wants to sell the mine or some of its mining rights to another mining company. Before Argyle can sell any mining rights it has to make sure that the new mining company promises to follow the rules in this agreement.

Traditional Owners will soon have to set up an Aboriginal Corporation to look after their Native Title rights. This corporation is called a Prescribed Body Corporate. This part also talks about how the Traditional Owners can hand-over to a Prescribed Body Corporate so it is part of this agreement too. If the Traditional Owners hand-over to the Prescribed Body Corporate, the Prescribed Body Corporate has to promise to follow the rules in this agreement.

Transfer by Argyle

13.1 Subject to:

(a) Argyle complying with all Governmental Requirements; and

(b) Argyle procuring the third party (Substitute Party) to enter into a deed of transfer substantially in the form of Schedule 14.

Argyle may transfer to the Substitute Party the whole or any part of the Argyle Interests including the rights, titles and interests arising under this agreement attaching or relating to those Argyle Interests.

Transfer Effective

13.2 Any exercise by Argyle of its right under clause 13.1 will become effective on the date the deed of transfer substantially in the form of Schedule 14 is executed by both Argyle and the Substitute Party.

Effect of Transfer by Argyle

13.3 Upon Argyle transferring its rights, titles and interests in a part only of any of the Argyle Interests in accordance with this agreement, Argyle will be jointly and severally liable with the Substitute Party for the performance of the obligations under this agreement in respect of the part of the Argyle Interests transferred.

13.4 Upon Argyle transferring its rights, titles and interests in the whole of any of the Argyle Interests in accordance with this agreement, Argyle will thereupon be released from its obligations under this agreement in respect of all the Argyle Interests, with effect from the date the deed of transfer referred to in clause 13.1 is executed by Argyle and the Substitute Party. For the avoidance of doubt, Argyle remains liable for any obligations arising under this agreement before the date at which the deed of transfer is executed by Argyle and the Substitute Party.

Novation by the TOs

13.5 Subject to:

(a) the TOs complying with all Governmental Requirements;

(b) a Consent Determination being made;

(c) the TOs procuring the TO PBC to enter into a deed of novation substantially in the form of Schedule 15; and
(d) Argyle and the Substitute Party agreeing to the amendments, if any, required to be made to this agreement as a result of the intended novation and documenting those amendments in the deed of novation referred to in clause 13.5(c),

the TOs may novate this agreement to the TO PBC.

**Reversion to TOs**

13.6 If:

(a) the TOs enter into the deed of novation substantially in the form of Schedule 15 and novate this agreement to the TO PBC under clause 13.5; and

(b) following this novation, Argyle acting reasonably and in good faith forms the opinion that the TO PBC:

(1) has ceased to exist;

(2) has ceased to operate; or

(3) has failed to comply with its obligations under this agreement,

then this agreement will be novated back to the TOs in accordance with the terms and conditions set out in the deed of novation entered into between the parties (including the TO PBC).

13.7 For the avoidance of doubt, and without limiting any obligation imposed on the TOs under the deed of novation entered into by the parties (including the TO PBC) under clause 13.5, if this agreement is novated back to the TOs, the TOs acknowledge and agree that they will:

(a) be responsible for, and be deemed to have carried out, any and all acts and omissions of the TO PBC in respect of this agreement;

(b) be deemed to have received and accepted all rights, interests and benefits arising or accruing to the TO PBC in respect of this agreement; and

(c) not, and not be entitled to, bring any claim or action against Argyle for a failure by Argyle to perform any of its obligations under this agreement where Argyle has discharged or performed such obligations for the benefit of the TO PBC.

---

14 **No variation**

*This agreement can only be changed if Argyle, the Traditional Owners and the KLC agree in writing for that change. This clause also talks about what happens if the Government changes the law in a way that affects this agreement. If this happens, everyone has to sit down and talk about any changes to this agreement.*

**No variation of Consent Determination or ILUA registration**

14.1 Argyle, the TOs and the KLC agree that they will not, without the consent in writing of each of the other parties, make any application to revoke or vary:

(a) the determination of native title made in accordance with clause 8; and/or
(b) the registration of this agreement as an ILUA in accordance with clause 12.

No variation of agreement

14.2 This agreement may not be varied without the consent in writing of each of the parties.

Change of Law

14.3 If there is a change in Law which:
   (a) directly impacts on Argyle’s obligations to pay Monetary Benefits;
   (b) is beyond the reasonable control of the parties;
   (c) could not have been reasonably contemplated or allowed for in entering into this agreement; and
   (d) causes a significant change to the liability of Argyle as a result of the change,
then:
   (e) any party may, by written notice to the others, notify the other parties of the details of the change in Law and the effects that the party considers that the change in Law has on the terms of the agreement;
   (f) the affected parties must promptly meet and begin (or, if they already have begun, continue) negotiating in good faith, with a view to reaching agreement on what changes should be made to the terms of the agreement to minimise the disadvantage to any party arising from the change in Law; and
   (g) if the relevant parties fail to agree upon all of those changes within 2 months from the date of giving of the notice referred to in clause 14.3(e) then the provisions of clause 17 will apply to the dispute.

15 Warranties

Here the Traditional Owners tell Argyle that they are the right people to make this agreement and nobody has been left out.

The Traditional Owners say to Argyle, “The people who sign this agreement have got the right to sign for us and make us part of this agreement”.

The Traditional Owners also tell Argyle that lawyers and other people have given them good advice about the agreement. Traditional Owners say, “We understand what is in the agreement.”

The KLC also promises here that they gave good advice to the Traditional Owners and that they did their best to make sure all the right people are part of the agreement.

TO Warranties

15.1 The TOs who sign this agreement represent and warrant that the TOs:
   (a) have reviewed the Ethnography and agree that the Ethnography correctly identifies:
(1) all of the people who hold Traditional Rights in the Agreement Area; and

(2) the nature and extent of those Traditional Rights;

(b) are the only people who hold Traditional Rights in relation to the Agreement Area under traditional Aboriginal laws and customs;

(c) have authorised the TOs who sign this agreement to enter into this agreement on behalf of all of the TOs and that the TOs have the full power and authority to enter into and perform the TOs' obligations under this agreement;

(d) have received full and proper legal and financial advice during the Agreement Making Process and about the content and effect of this agreement;

(e) are making this agreement on the basis of an informed understanding of its contents;

(f) have authorised the TO Applicants as the applicants to make the TO Claim and pursue the Consent Determination; and

(g) have authorised the KLC to do all things necessary to facilitate the making of the TO Claim and the Consent Determination.

KLC warranty

15.2 The KLC warrants that the KLC has used its best endeavours to ensure that:

(a) all persons who hold Traditional Rights in the Agreement Area have been identified by the Ethnography;

(b) the Ethnography was conducted in accordance with best anthropological practice; and

(c) the TOs received full and proper legal and financial advice during the Agreement Making Process and about the content and effect of this agreement.

Reliance on Warranty

15.3 For the purposes of this agreement, Argyle is entitled to rely on:

(a) the warranties contained in this agreement; and

(b) any authorisation, consent or notice given by the TOs in writing apparently in compliance with this agreement.

Survival of warranties

15.4 A warranty given by a Party in this agreement will not merge on the completion of the matters referred to in, or contemplated by, this agreement, but will survive that completion even if any Party has:

(a) waived any right under this agreement; or

(b) failed to take proceedings for any breach.
16 Term

This agreement starts when everyone has signed and finishes up when Argyle gives up all its mining titles. Some of the Benefits don’t start until this agreement is registered by the National Native Title Tribunal.

16.1 Subject to clauses 16.2 and 16.3, this agreement will commence on the Commencement Date and terminate upon Closure.

16.2 Clauses 5.2(a) and 5.4(a) commence on the date upon which the last of John Toby, George Dixon, Evelyn Hall and Peggy Patrick have each executed this agreement.

16.3 Clauses 6.9 to 6.12 and 6.14 to 6.24 commence upon the Registration Date.

17 Dispute Resolution

Here we say: “If we have an argument, first we will try and sort it out ourselves. If this doesn’t work, then together we will ask a mediator to help us – someone separate from both sides. With some arguments we have to ask someone to judge which way to go. This person is called an arbitrator. If the mediator or the arbitrator can’t sort it out, and we still have an argument, then we can go to Court.”

Mediation

17.1 If a dispute arises between 2 or more parties in relation to this agreement:

(a) any party may give notice in writing to the other party setting out details of the dispute; and

(b) the parties must use their best endeavours to resolve that dispute between themselves.

17.2 If the parties fail to resolve the dispute within 21 days after service of a notice under clause 17.1, then either party may refer the dispute to mediation by written notice to the other party.

17.3 The mediation is to be conducted by an independent person appointed by agreement of the parties.

17.4 If the parties do not agree on the appointment of a mediator within 21 days of a referral under clause 17.2, then either party may request the President of the Law Society of WA to appoint an independent mediator who has experience in the area of the dispute and if possible, indigenous cultural experience.

17.5 The costs of the appointed mediator will be borne equally by the parties up to a total cost of $20,000, after which the costs of the appointed mediator will be borne 75% by Argyle and 25% by the TOs.

17.6 Except to the extent of any inconsistency with this clause, the mediation will be conducted in accordance with the Mediation Rules of the Law Society of New South Wales.
17.7 The parties will hold the mediation in Kununurra, Western Australia unless otherwise agreed. Any resolution arising from the mediation must be in writing signed by both parties, and will not be binding until it has been put in writing.

17.8 The parties will engage in the mediation process in good faith and with the aim of reaching a resolution of the dispute. If the parties fail to achieve a resolution of the dispute by mediation within 4 weeks of the appointment of a mediator under this clause or such further time as is agreed by the parties, either party may take such action as it considers appropriate, including commencing legal proceedings.

Arbitration

19 Tax

This clause talks about two kinds of tax that must be paid to the government: There is GST and PAYG tax. Argyle has to pay the government GST on the money it pays to Traditional Owners and Communities in the agreement. Argyle will do the paperwork for tax so it can claim some of this money back later on. Traditional Owners and Communities can’t claim it.

PAYG Tax is tax that comes out of wages. When Argyle pays Traditional Owners or Communities for work that they do, Argyle has to take tax money out of this pay to give to the government. Argyle has to take out nearly half the pay for tax, unless Traditional Owners can fill out the form in Schedule 17 at the back of this agreement. If Argyle takes out tax from the pay, Traditional Owners can claim some back from the Government.

GST

The recipient must pay the additional amount at the same time as the consideration to which it is referable.

19.3 The supplier must issue a tax invoice to the recipient of a taxable supply to which clause 19.2 applies at the same time as payment of the GST inclusive consideration for that supply.

PAYG Withholding

19.4 Before making any payments to the TOs under this agreement, Argyle will deduct and remit any tax which Argyle may be required by the Tax Law to deduct and remit to the Commissioner of Taxation from time to time.

19.5 Argyle will not be required to deduct and remit tax at the rate of 48.5% under the Tax Law provided that the TOs receiving payments under this agreement give to Argyle a written statement in the form contained in Schedule 17, to the effect that

MEMORANDUM OF UNDERSTANDING (MOU)

between

Argyle Diamonds Mines Pty Limited

(ABN 52 008 912 418)

on behalf of

Ashton Argyle Holdings Pty Ltd,
Capricorn Diamonds Ltd and
Perpetual Trustees (WA) Ltd and their Successors

and

Kimberley Land Council Aboriginal Corporation

(ABN 96 724 252 047) the Registered Native Title Representative Body for the Kimberley Region Pursuant to Section 202 of the Native Title Act 1993 (Commonwealth)

27 September 2001
1. INTRODUCTION

1.1 Argyle Diamond Mines Pty Ltd (ADM) has conducted diamond mining activity and operations within the area of Mineral Lease 2598A and each of the leases listed in Attachment 2, since 1879 under its valid mining tenements and its rights under the Diamond (Argyle Diamond Mines Joint Venture) Agreement Act 1991 (State Agreement Act). ADM proposes to continue those operations into the future. These mining operations and activities, ADM’s mining tenements, leases and the rights of ADM under the State Agreement Act are referred to in this agreement interchangeably as the ADM lease area and the Argyle Diamond Mine.

1.2 ADM and the Kimberley Land Council (KLC) acknowledge that there are Aboriginal people who have traditional rights and interests in the ADM lease area and hold, or hold, native title over the ADM lease area. The Aboriginal peoples who hold or hold native title over the ADM lease area will be identified by the ethnography conducted by the KLC under this MOU and are referred to in this MOU as the Traditional Owners (TOs).

1.3 ADM now seeks to negotiate a comprehensive Agreement (the Agreement) with the TOs.

1.4 ADM recognises the role and responsibilities of the KLC as the only recognised representative body under the Native Title Act 1993 (NTA) for the Kimberley region.

1.5 The KLC will assist, represent and/or facilitate the representation of the TOs in the negotiation of the Agreement in accordance with its obligations under the NTA.

1.6 ADM and the KLC intend that the Agreement be in the form of an Indigenous Land Use Agreement (ILUA) registered under Division 3 of Part 2 of the NTA.

1.7 The KLC will be a party to the ILUA in its own right as the representative body for this area.

1.8 Both ADM and KLC intend to be bound by this MOU.

1.9 ADM and the KLC intend that the principles and procedures governing the relationship between ADM and the TOs in respect of the negotiation of the Agreement be reflected in a Framework Agreement between ADM, the TOs and the KLC.

1.10 The KLC is entering into this MOU without prejudice to any existing or potential legal rights of the TOs.
2. ETHNOGRAPHY

2.1 The KLC will initially consult with local communities and commence a process to determine an ethnography of the ADM lease area.

2.2 The ethnography of the ADM lease area (the Traditional Owner Ethnography) will identify the TOs.

2.3 The Traditional Owner Ethnography will be the sole responsibility of the KLC.

2.4 ADM intends to appoint Dr Peter Sutton to conduct a peer review of the Traditional Owner Ethnography. The peer review will be conducted at two (2) stages: at the point in time at which the process and methodology of the Traditional Owner Ethnography is determined by the KLC but before it is commenced, and upon the conclusion of the Traditional Owner Ethnography. This peer review will be limited to the process and methodology for conducting the Traditional Owner Ethnography. The KLC will assist the peer review by providing to ADM copies of source materials used in the Traditional Owner Ethnography, which will be subject to 2.6 below.

2.5 ADM will accept that the Aboriginal peoples identified by the Traditional Owner Ethnography as the TOs and will deal exclusively with them, subject to:

(a) any concerns identified by the peer review being satisfactorily addressed by the KLC; and

(b) the KLC agreeing, subject to its obligations under the NTA, to decline assistance with the lodgement and/or registration of any native title claims over any part of the ADM lease area by any persons not identified as TOs in the Traditional Owner Ethnography; and

(c) where the KLC represents any TOs identified in the Traditional Owner Ethnography, the KLC will certify, under section 203BE of the NTA any native title claims over any part of the ADM lease area lodged by those TOs; and

(d) agreement between ADM, the TOs and the KLC about the completeness of the TO group identified in the Traditional Owner Ethnography and how any other TOs identified at any time during the negotiation of the Agreement should be dealt with.

2.6 Subject to 2.7 and 2.8 below, ADM acknowledges that any ethnographic, cultural or other related information and data created and/or obtained as a result of the process referred to in this section is the property of the TOs and cannot be used without the written permission of the TOs or the KLC. Such information will only be provided to ADM on a strictly confidential basis and is to be returned by ADM at the conclusion of the negotiations or at such other time as the TOs or the KLC request in writing.

2.7 2.6 does not apply to any information or data that is already in the public domain.

2.8 At the conclusion of the Traditional Owner Ethnography, ADM will retain a written report provided by the KLC and comprising a summary of the Traditional Owner Ethnography process and methodology, and a summary of the conclusions of the Traditional Owner Ethnography which it will use only for cultural heritage protection / management and land management and other related matters involving Aboriginal people in the ADM lease area.
3. **NEGOTIATION PRINCIPLES**

3.1 Both Parties will conduct the negotiations in good faith and with mutual respect so as to build on the trust and goodwill that has already started to be established between them.

3.2 Irrespective of any decision in the High Court in relation to the native title claim by the Mirriwung Gajawadj in relation to the ADM lease area, ADM wishes to reach a comprehensive agreement with the TOs.

3.3 Both Parties agree that there will be regular community meetings on country to keep the TOs fully informed of the process, nature and progress of the agreement negotiations. The timing of these meetings is set out in Section 5. The agenda for these meetings shall be agreed beforehand by the Parties.

3.4 Both Parties intend that a negotiating group be chosen by and formed from the TOs identified in the Traditional Owner Ethnography (Negotiating Group). It is intended that the Negotiating Group will have primary carriage of negotiations with ADM on behalf of the entire TO group.

3.5 The KLC agrees to certify any ILUA arising from the negotiations under section 293BE of the NTA.

3.6 The KLC agrees to manage the process of having any ILUA arising from this negotiation lodged and registered with the National Native Title Tribunal (NNTT) and do all things necessary to ensure that any ILUA arising from this negotiation is lodged and registered with the NNTT. ADM agrees to assist the KLC in managing the registration process.

3.7 ADM may assign the whole or any part of its interest in the ADM lease area on the condition that the assignee enters into a deed of covenant, in which the assignee agrees to be bound by the terms of this MOU, and any agreement entered into by the parties as contemplated under this MOU.
4. ASSISTANCE

4.1 The KLC has prepared a budget for the cost of the entire negotiation process, which is set out in the attached schedule (Attachment 1).

4.2 ADM has already undertaken to provide assistance to the KLC to conduct the first round of community meetings to the sum of $54,000, which is in addition to the negotiation budget set out in Attachment 1.

4.3 ADM agreed to assist the KLC and the TIOs engage in the negotiation process by providing:

(a) financial assistance; and
(b) access to and provision of information concerning the Argyle Diamond Mine.

4.4 The KLC has applied to ATSIC for funding of the negotiation process. ADM will fund the difference between the KLC’s budget for the whole of the negotiation process and ATSIC’s total contribution to the negotiation costs (Financial Assistance).

4.5 ADM will provide the Financial Assistance by paying the KLC the initial lump sum of $100,000 as an advance payment at the signing of this MOU. The KLC will seek further payment of the Financial Assistance from ADM to restore the lump sum by providing to ADM invoices of expenses incurred in undertaking the tasks for each milestone and process outcome set out in Attachment 1. ADM will pay to the KLC the invoiced amounts within thirty (30) days of receipt of the invoice.

4.6 ADM’s payment will be subject to agreement between the Parties about process steps, process outcomes, timeframes, and the tasks for each milestone and process having been undertaken or concluded. Section 8 provides the Parties with a guide for determining when process steps, outcomes and timeframes have been concluded. If the Parties fail to agree on these matters, then assistance may be sought from an independent auditor, as agreed between the Parties.

4.7 The KLC agrees to refund to ADM any money that is provided under 4.5 above but remains unspent at the end of the negotiation process.

4.8 ADM and KLC will regularly review the assistance necessary for KLC to progress the Agreement and adjust the amount of the Financial Assistance as agreed. Both Parties agree that at this stage of the process the budget for the KLC’s costs is reasonable and thorough, that the KLC has had reasonable time to prepare the budget and any further assistance from ADM will have to be clearly justified.

4.9 Both Parties agree that any staff / consultants engaged by the KLC under the KLC attached budget shall be employed for the primary purpose of working on these negotiations and that shall be written into their conditions of employment.

4.10 ADM, or the KLC, may, by mutual agreement, seek assistance from other sources to assist the negotiation process.

FRAMEWORK AGREEMENT

between

Argyle Diamond Mines Pty Limited (ABN 52 008 912 418) (ADM)

on behalf of

AML Nominees Pty Ltd
Ashton Argyle Holdings Pty Ltd
Capricorn Diamonds Ltd

and

Kimberley Land Council Aboriginal Corporation (KLC)
(ABN 96 724 252 047) the Registered Native Title Representative Body for the Kimberley Region Pursuant to Section 202 of the Native Title Act 1993 (Commonwealth) (NTA)
1. INTRODUCTION

1.1 ADM has conducted diamond mining activity and operations within the area of Mineral Lease 259SA and each of the leases listed in Schedule 1, since 1979 under its mining tenements and its rights under the Diamond (Argyle Diamond Mines Joint Venture) Agreement Act 1981 (State Agreement Act). ADM is also the holder of Grazing Lease 3116/8547. ADM proposes to continue those operations into the near future by means of open cut mining. Argyle intends to develop an underground mine upon the expiration of the open pit, subject to capital approval, TO approval, community support and obtaining the necessary Government approvals. These mining operations and activities, ADM’s mining tenements, leases and the rights of ADM under the State Agreement Act are referred to in this Framework Agreement interchangeably as the ADM lease area and Argyle Diamonds.

1.2 ADM acknowledges that there are Aboriginal People who have traditional rights and interests in the ADM lease area and hold, or held, native title over it. Those Aboriginal People have been identified by ethnography conducted by KLC and are referred to in this Framework Agreement as the Traditional Owners (TOs).

1.3 ADM now seeks to negotiate a Comprehensive Agreement (the ILUA) which ADM and KLC intend be in the form of an Indigenous Land Use Agreement registered under Division 3 of Part 2 of the NTA.

1.4 ADM and KLC entered into a Memorandum of Understanding (MOU) on 27 September 2001. This agreement is intended to supercede the MOU and assist all of the Parties to work co-operatively together towards finalising the ILUA.

1.5 KLC will be a party to the ILUA in its own right as the representative body for this area.

1.6 Both ADM and KLC intend this Framework Agreement to be legally binding upon them. It is also intended that this Framework Agreement sets out the process steps to the ILUA, that any change to the process steps are to be agreed upon by the parties and that if the process steps are not followed as agreed then the parties will not achieve the ILUA.

1.7 The Parties agree that there will be regular community meetings on Country to keep the TOs and local Aboriginal communities fully informed of the process, nature and progress of Agreement Making towards the ILUA. ADM will be involved in at least part of these meetings. A proposed timetable for those meetings is set out in Schedule 2.
1.8 The TOs have established a TO Committee (TO Committee) to assist the Parties with communications, discussions and Agreement Making. It is the intention of the Parties that the TO Committee will meet at the 15/16 July 2003 meeting and ratify the agreement making process set out in this Framework Agreement. Ratification means that the TO Committee members, on their own behalf and on behalf of the TOs agree with the Framework Agreement and will work to the rules in it. It is acknowledged that the TO Committee does not have the authority to bind the TOs to an ILUA.

1.9 The Parties acknowledge that once a final draft ILUA has been reached, the TOs will not be bound by it until they have authorised the making of the agreement consistent with section 251A of NTA.

1.10 Subject to the provisions of section 203BE(5) of the NTA having been satisfied, KLC agrees to certify any ILUA arising from the Agreement Making process.
2 ETHNOGRAPHY

2.1 KLC has engaged two anthropologists (the anthropologists) to provide KLC with a report setting out the ethnography of the ADM lease area.

2.2 The ethnography of the ADM lease area (the Traditional Owner Ethnography) has identified the TOs. The anthropologists will provide a Connection Report to KLC to support an application for a Determination of Native Title over the ADM lease area.

2.3 The anthropologists will also provide to KLC a Certification Report which will address the requirements of s. 203BE (2) and (5) of the NTA.

2.4 ADM has appointed Dr Peter Sutton to conduct a peer review of the Traditional Owner Ethnography. The peer review will be limited to the process and methodology for conducting the Traditional Owner Ethnography. KLC will assist the peer review by providing to ADM copies of such source materials used in the Traditional Owner Ethnography, as requested by Dr Sutton, within 7 days of receipt of such request.

2.5 ADM will accept the Aboriginal Peoples identified by the Traditional Owners Ethnography as the TOs and will deal exclusively with them, subject to:

(a) any concerns identified by the peer review being satisfactorily addressed by the KLC;

(b) KLC agreeing, subject to its obligations under the NTA, to decline assistance with the lodgment and/or registration of any native title claims over any part of the ADM lease area by any persons not identified as TOs in the Traditional Owner Ethnography;

(c) where KLC represents any TOs identified in the Traditional Owner Ethnography, KLC will certify, under section 203BE of the NTA a native title claim over any part of the ADM lease to be lodged by those TOs; and

(d) agreement between ADM, the TOs and KLC about how any other TOs identified at any time during the Agreement Making process should be dealt with.

2.6 Subject to clauses 2.7 and 2.8 below, ADM acknowledges that any ethnographic, cultural or other related information and data created and/or obtained as a result of the process referred to in this section is the property of the TOs and cannot be used without the written permission of
the TOs or KLC. Such information will only be provided to ADM on a
strictly confidential basis and is to be returned by ADM at the conclusion of
the Agreement Making process or at such other time as the TOs or KLC
request in writing.

2.7 Clause 2.6 does not apply to any information or data that is already in the
public domain.

2.8 At the conclusion of the Traditional Owner Ethnography, KLC will provide
to ADM and ADM will retain a written report comprising a summary of the
Traditional Owner Ethnography process and methodology, and a summary
of the conclusions of the Traditional Owner Ethnography which it will use
only for cultural heritage protection/management and land management
and other related matters involving Aboriginal people in the ADM lease
area, unless agreed otherwise in the ILUA.
3. AGREEMENT MAKING PRINCIPLES

3.1 The Parties will conduct the Agreement Making process towards an ILUA in good faith and with mutual respect so as to build on the trust and goodwill that has already started to be established between them.

3.2 All discussions, and communications between the Parties concerning the proposed ILUA will be conducted on a without prejudice basis unless agreed otherwise. All parties agree that any statements made, understandings reached, or communications between the Parties shall not be legally binding upon any Party unless expressly stated to be intended to have legal effect and expressly authorised by the relevant Party.

3.3 Notwithstanding the decision of the High Court of 8 August 2002 in Western Australia v Ward, ADM wishes to recognise native title where that is possible and to reach a comprehensive agreement with the TOs in relation to their native title and for the whole of the ADM mineral lease area and the Grazing Lease 3116/8547 area.

3.4 KLC agrees to manage the process of having any ILUA arising from this Agreement Making process lodged with the National Native Title Tribunal (NNTT) and to do all things necessary to ensure that it is registered with the NNTT. ADM agrees to assist KLC in managing the registration process.

3.5 Neither party may assign this agreement without the consent of the other party, which consent must not unreasonably be withheld.

3.6 The Agreement Making process shall take place on country and/or such other places as the Parties agree.

3.7 A schedule of meetings between the Parties for the period ending December 2003 has been prepared and agreed by the Parties which schedule is annexed as Schedule 2.

3.8 The Parties agree to review and update the schedule of meetings at regular review meetings as set out in Schedule 2. The Parties further agree to make all reasonable efforts to give adequate notice if the meeting schedule needs to be varied on short notice, including an alternative meeting date.

3.9 The KLC and ADM agree to give the other prior notice of any proposed meetings with State or Commonwealth government personnel to discuss matters relating to the ILUA.
4. TRADITIONAL OWNER DECISION MAKING

4.1 KLC has provided to ADM a summary of the decision making process for the TOs in relation to the ADM mineral lease area and the Grazing Lease 3116/8547 area. That summary is set out below. The summary does not purport to set out a detailed or complete explanation, but rather provides a guide for the purpose of ensuring that ADM and KLC are aware of the processes that the TOs must go through to reach a decision. Miriuwung names are used. The Gija names are in brackets.

4.2 All interests were created in the Ngarangani (Ngarranggarni) (Dreaming) and cannot be taken away or denied. The authority of the dawawang (daawan) arises from their primary connections with the creative beings and the relationship between these beings and the land itself.

The dawang (daam) that comprises a majority of ADM’s lease area is the Mandangala/Tiltuwam (Mandangala/Thilthuwam) dawang (daam). In the southern part of the lease a small rectangular portion (of approximately 1 x 3km), straddles the Bow River. In doing so it includes a second dawang (daam), that of the Yunurri/Yalangga group.

The dawang (daam) of Mandangala/Tiltuwam (Mandangala/Thilthuwam) is surrounded by five other estates. These are the Balaburr, Bilbirdjing (Bibilijing), Dundun, Numulawayin (Neminuwarlin) and the Yunurri/Yalangga estates. The dawawang (daawam) of these adjacent estates have secondary, traditional rights and interests in the estate of Mandangala/Tiltuwam (Mandangala/Thilthuwam).

The members of the six groups (Dundun, Balaburr, Yunurr, Bilbirdjing (Bibilijing), Mandangala/Tiltuwam (Mandangala/Thilthuwam), Numulawayin (Neminuwarlin)) are in turn part of a broader society that has a shared system of law and custom. This broader society comprises members who occupy areas which extend an undetermined distance beyond the ADM lease area.

The consequence of the shared system of law and custom is that senior Aboriginal persons, madjiang (majam), who may not be members of one of the six estates named above may, nevertheless, have a measure of responsibility for sites within the Mandangala/Tiltuwam (Mandangala/Thilthuwam) dawang (daam). As a consequence, they have a role in the decision making process of that estate. Those individuals also have secondary rights and interests.

Under traditional law and custom a decision that would affect an estate is made by amalgamations of individuals who exhibit specific qualifications.
The decision-making processes regarding both religious and secular matters are based on tradition and deeply held religious beliefs. Under that tradition it is, for example, the responsibility of senior persons to look after sacred sites some of which may be considered inherently dangerous because of events that occurred in the Ngarrangani (Ngarranggarni).

Responsibility for decision making rests upon a select group of senior persons referred to as madjang (majam), a term which may be loosely translated as leader or boss. A combination of the terms madjang (majam) and dawawang (daawam) refers to a knowledgeable and wise spokesperson of the dawang (daam).

All decisions in relation to Mandangala/Tiltuwm (Mandangala/Thilthuwm) dawang (daawam) must encompass the interests of those who have secondary rights in that estate. However, decisions would then be articulated by the Mandangala/Tiltuwm (Mandangala/Thilthuwm) madjang (majam) who 'speak for the country'.

It is most important to note that while the final decision would be articulated by the madjang (majam) of Mandangala/Tiltuwm (Mandangala/Thilthuwm), it must encompass (not just consider) the decisions and must sustain the interests of the members of neighbouring estates and all those others who claim secondary interests in the area.

For this reason the process by which decisions are to be made in relation to the ADM lease area would require the participation of all estate groups mentioned above, with the inclusion of those madjang (majam) not of these groups and from more distant estates whom senior members of the six estates may nominate from time to time depending on the context.

4.3 Decisions made by the TO's in accordance with this decision making process will be communicated to ADM:
(a) by notice in writing from the KLC, which notice shall communicate the decision and confirm that the decision making process set out in this clause has been followed; or
(b) verbally by the TO Committee at Agreement Making Group Meetings, which decision will be recorded in writing in the outcomes of the meeting as required by clause 5.16.
5. AGREEMENT MAKING GROUP

5.1 The Parties have established an Agreement Making Group.

5.2 The main purpose of the Agreement Making Group is to:

5.4 While TO's, Argyle and the KLC may change their nominated members of the Agreement Making Group by notice in writing to the others, it is expected that each member will remain a member of the Agreement Making Group until the ILUA has been reached.

5.5 The Parties acknowledge that it is important that there be consistency of attendance at Agreement Making Group meetings. Members of the Agreement Making Group must therefore commit to regularly attend Agreement Making Group meetings.
5.6 If a member is not available to attend an Agreement Making Group meeting, the party nominating the non-attending member may nominate an alternative person to attend.

5.7 Members may invite a reasonable number of advisers and ADM may invite relevant operational ADM staff to attend Agreement Making Group meetings.

5.8 The Agreement Making Group may invite Government or other relevant people to attend meetings.

5.9 In addition to the roles of the Agreement Making Group set out in clause 5.2 it may, by agreement, consider and make recommendations in relation to such current operations of ADM as are raised for consideration by ADM.

5.10 The Agreement Making Group may also provide guidance and direction to the Parties in relation to the development of programs or strategies arising from the EIA and SIA processes in order to address issues arising from those processes.

5.11 The Agreement Making Group will meet on a regular basis in accordance with Schedule 2.

5.12 ADM and the KLC may establish a Secretariat for the purpose of assisting the Agreement Making Group as directed by it.

The duties of the Secretariat are to:-

- organise Agreement Making Group meetings, prepare agendas at least 7 days in advance of meetings and assist with the distribution of the agendas to the Agreement Making Group;
- assist the liaison with Agreement Making Group members with the aim of ensuring that Agreement Making Group members are well informed and able to participate in discussions in a timely manner;
- assist with the communication of the outcomes of Agreement Making Group meetings as directed by the Agreement Making Group.

The Secretariat will consist of:-
- an ADM Administration Officer; and
- a KLC Administration Officer.
5.13 In addition, each of ADM and KLC will nominate one of their staff to be the main contact person for each of those Parties for meeting arrangements and logistics. In the first instance, ADM nominates Fred Murray and KLC nominates Archie Tanna.

5.14 The Parties agree that the KLC will engage interpreters to assist at the Agreement Making Group Meetings and otherwise as required. The interpreters will be engaged from the Kimberley Interpreting Service unless otherwise agreed by the Parties.

5.15 The Parties will engage one male and one female facilitator to assist at the Agreement Making Group Meetings. The facilitators are Ruth Wade and Dan O’Dea of the NNTT, unless otherwise agreed by the parties.

5.16 Those persons present at the meetings will settle the outcomes of each Agreement Making Group meeting prior to the conclusion of each meeting. The facilitators will confirm the outcomes of the meetings and circulate them as soon as possible after the meetings. Those outcomes will be the formal record of the meeting.

5.17 A quorum for the Agreement Making Group will require the attendance at each meeting of at least:

- 1 ADM member; and
- 1 KLC member.

In addition, a quorum will only be formed if the TO’s present at the meeting confirm that the correct people are at the meeting in order for a meeting to go ahead.

5.18 Where a decision is required to be made by the Agreement Making Group, it will be only made with the agreement of all of the members of the Agreement Making Group present at a meeting.

5.19 Where agreement cannot be reached, any member may require additional information or further options to be discussed at a subsequent meeting of the Agreement Making Group.

Where agreement cannot be reached after further information has been considered, the Agreement Making Group may refer matters to the Managing Director of Argyle Diamonds (or his delegate), the Chief Executive Officer of KLC and two TOs nominated by the TO representatives on the Agreement Making Group for advice and direction.

5.20 ADM, TO’s and the KLC will each provide details at each Agreement Making Meeting of other activities which may impact upon the availability
or ability of the TO's to focus attention on the Agreement Making Process. The TO's will agree at meetings what priority should be given to other activities which may impact on the Agreement Making Process.

5.21 The Parties intend that any agreement as to the content of the ILUA will only be made by the Agreement Making Group at Agreement Making Group Meetings. The Parties agree that the Agreement Making Process must be open and transparent and that there will be no negotiations between ADM and the TO's about the terms of the ILUA other than at the Agreement Making Group Meetings. KLC and ADM may continue to negotiate so long as they report the outcomes of those discussions to the Agreement Making Group.

5.22 Subject to clause 5.21, the Parties acknowledge the need for informal meetings between ADM and smaller groups of TO's for the purpose of sharing information about the Agreement Making Process and providing general information about mining operations and plans. These meetings will be scheduled by agreement between ADM and the KLC and a KLC representative must be present at these meetings. Agreement as to the scheduling of these meetings will not be unreasonably withheld by either Party.

5.23 The members of the TO Committee nominated in clause 5.3 will each be paid $300 per day for their attendance at the Agreement Making Group Meetings. ADM will pay no more than $8,100 per day for each Agreement Making Group Meeting to the KLC who will be responsible for distribution of the payments to the individual members of the TO Committee.
6. SUBSTANTIVE ISSUES FOR NEGOTIATION

6.1 The Parties intend that the scope of the matters the subject of discussions as part of the Agreement Making process towards an ILUA between the Parties include, but not be limited to the following:

(a) recognition of traditional rights and interests and/or native title rights of the TOs in the ADM lease area;

(b) transparent principles and terms of the relations between ADM and the TOs;

(c) transparent principles and terms of the relations between ADM and affected communities;

(d) consideration for past, present and future impacts and effect of the Argyle Diamond Mine on traditional rights and interests and/or native title and the TOs;

(e) community benefits flowing from the existence of the Argyle Diamond Mine;

(f) protection of sites of importance to the TOs within the ADM lease area;

(g) cultural and heritage protection and management, including work program clearances;

(h) environmental and social impact assessment and management;

(i) training, employment and business opportunities in the mine operations and mine closure, including possible joint ventures;

(j) exit and post mine strategies and arrangements;

(k) cross-cultural awareness training;

(l) use of, access to and enjoyment of ADM lease area by TOs;

(m) ADMs long term objectives post mine;

(n) the role of government;

(o) assignment of any interests/obligations; and
(p) transfer of the Grazing Lease 3116/8547.

6.2 The identification of these broad substantive issues for negotiation by the Parties will not be used by any Party during the Agreement Making process to limit the scope of discussion under each issue. The inclusion of a substantive issue in this section does not commit any of the Parties to conclude agreement on it.

6.3 The substantive issues will be closed once in-principle agreement has been reached. Parties agree not to raise any substantive issues after that time.
7. ASSISTANCE

7.1 ADM agrees to assist KLC and the TOs engaged in the Agreement Making process by providing;

(a) financial assistance; and

(b) access to and provision of information concerning the Argyle Diamond Mine.

7.2 ADM has to date paid the KLC $664,569 as assistance for the agreement making process. That amount includes the payment of $223,006 made in March 2003 for expenditure and projected expenditure.

ADM has also paid the following amounts for social impact assessment work that was carried out subject to joint terms of reference agreed to by ADM and the KLC:

Cath Elderton $89,405
Bill Pritchard $24,725
John Taylor $43,042
Total: $157,152

7.3 ATSIC has provided approximately $350,415 to KLC to assist with the development of the ILUA.

7.4 ADM and KLC have agreed a budget for the further costs of the Agreement Making Process up to the end of December 2003 which is set out in Schedule 4.

7.5 The KLC will submit a request for further assistance for the period January to June 2004.

7.6 The KLC will provide monthly invoices to ADM setting out actual expenditure and outcomes. On receipt of these monthly invoices ADM's further payments will be subject to the KLC attaining certain outcomes as set out in Schedule 3 within the relevant timeframes, and relevant tasks having been undertaken or concluded as per Schedule 3. The Parties agree that the outcomes referred to in Schedule 3 may be varied by agreement in writing.

7.7 The KLC agrees to refund to ADM any money that remains unspent from the payments made in March 2003. The KLC also agrees to refund to
ADM any money that is provided to it by ADM under this clause but remains unspent at the end of the Agreement Making process.

7.8 ADM and KLC will regularly review the assistance necessary for KLC to progress the Agreement and adjust the amount of the Financial Assistance as agreed. Any further assistance from ADM will have to be clearly justified. ADM will not unreasonably withhold providing further financial assistance where it is agreed that further or other work is required to complete the ILUA.

7.9 The Parties agree that the Project Manager, the male and female liaison officers and the administration officer engaged by KLC for the purpose of the Agreement Making process shall be employed for the primary purpose of working on the Argyle agreement project, which shall be written into their conditions of employment.

7.10 ADM and KLC may, by mutual agreement, seek assistance from other sources to assist the Agreement Making process.
8 CONFIDENTIALITY

8.1 All Parties agree that the Agreement Making process will be conducted in private and they will not discuss any information disclosed during the Agreement Making Process with any member of the public unless all Parties agree in writing or unless required by law to make the disclosure. For the avoidance of doubt information disclosed during the Agreement Making Process may be disclosed to TOs.

8.2 All Parties acknowledge that the other Parties will be keeping other stakeholders (eg ATSIC, Local, State and Federal Governments) informed of the existence of the Agreement Making process and agree that any communication about the Agreement Making process is to be transparent to the other Parties. All Parties agree to keep each other informed of any communication they have with their stakeholders, and to inform their stakeholders they will be keeping the other Parties informed. KLC may advise ATSIC including the Wunan Regional Council of the progress but not the content of Agreement Making process, without the further consent of the other Parties.

8.3 All information provided by any Party in the course of the Agreement Making process remains the property of that Party and cannot be used by any of the other Parties other than for that purpose without the written consent of the Party who provided the information.

8.4 Clause 8 does not apply to any information or data that is already in the public domain at the date of this Framework Agreement.
9. PUBLIC COMMENTS

9.1 While the Agreement Making process is proceeding, any public comments will be agreed and issued jointly by ADM and KLC, unless required by law or Stock Exchange rules.
10. TERM OF THE AGREEMENT

10.1 Unless otherwise agreed, this Framework Agreement shall terminate if the ratification and agreement referred to in clause 1.8 is not given or on 30 June 2004 whichever is the earlier.

HEADS OF AGREEMENT

Between
Argyle Diamonds Ltd and Argyle Diamond Mines Pty Ltd (Argyle)
Traditional Owners (TOs)
and
Kimberley Land Council Aboriginal Corporation (KLC)

1 Background

The parties have been working together in an extensive agreement process to reach an Indigenous Land Use Agreement (ILUA) and a Management Plan Agreement.

The purpose of this Heads of Agreement is to record the parties’ agreement that the substantive issues in the agreements have been resolved and to set out a process for finishing these agreements.

2 Signing of the ILUA and the Management Plan Agreement

2.1 Execution of the ILUA and the Management Plan Agreement by 24 September 2004

Subject to clauses 2.2 - 2.6, the parties agree that the ILUA in the form of Draft 9, dated 7 July 2004, and the Management Plan Agreement in the form of Draft 11, dated 7 July 2004, reflect the parties agreement on the substantive issues the subject of the negotiations between the parties, and that they will execute the final form of the ILUA and the Management Plan Agreement on or before 24 September 2004.

2.2 Financial Provisions of the ILUA

The financial arrangements recorded in the ILUA in the form of Draft 9, dated 7 July 2004, and the Management Plan Agreement in the form of Draft 11, dated 7 July 2004 are agreed, subject to the matters below:

(a) Existing payments to the signatories to the Good Neighbour Agreement

The parties confirm that the payments to the signatories of the 1980 Good Neighbour Agreement (in the terms set out in Argyle’s letter to the signatories of 1 December 1995) are in addition to the 2% of EBITDA payable by Argyle. The value of indexing these payments and extending them to the descendants of the signatories is part of the 2% EBITDA payment.
(b) **Minimum payments to non-charitable Trust**

The parties agree to the principle that in every year that payments are made under clause 6.12 of the ILUA, a minimum of $500,000 is paid into the Special Purposes Trust. The parties will work to find a way to achieve this. This matter must be resolved on or before the date of the next TO meeting in August 2004.

2.3 **Release against the State**

Argyle requires a full release against the State. The TOs wish to preserve their right to make a compensation claim against the State.

Argyle has suggested a compromise position at clause 10 of Draft 9 of the ILUA. This compromise remains subject to the approval of Rio Tinto.

This matter remains to be resolved.

2.4 **Other matters requiring resolution**

The matters that require resolution before the Indigenous Land Use Agreement and the Management Plan Agreement can be formally executed are set out below.

(a) **ILUA**

(1) The Malarangowem Native Title Claim must be removed from the Agreement Area.

(2) The distribution, trust and governance arrangements (Clause 6 and Schedules 13 and 14) must be resolved.

(3) The issue of the circumstances in which Argyle can reduce, suspend or terminate payments must be resolved (Clause 11).

(4) The genealogies must be updated and finalised.

(5) The Traditional Owners (TOs) who will execute the ILUA on behalf of the broader traditional owner group must be identified (ILUA generally and Schedule 10).

(6) The Current Mining Area (Schedule 15) must be agreed.

(7) The summary of the ethnography must be provided by the KLC and agreed (Schedule 3).

(8) A list of TOs and the means of TO identification must be provided by the KLC and agreed (Schedule 4).

(9) The form of TO native title claim must be provided by the KLC and agreed (Schedule 8).

(10) The form of ILUA certification must be settled and agreed (Schedule 9).

(11) The description of the native title holders must be provided by the KLC and agreed for the purposes of the native title consent determination (Schedule 12).

(12) The means of calculating the trust payments must be provided by Argyle and agreed (Schedule 19).
(13) The details of the payments to the Special Purposes Trust and the Charitable Trust to assist with set up and implementation costs must be provided by Argyle and agreed (Schedule 20).

(14) The individuals who are the recipients of the individual payments under clause 6 must have wills in place (clause 6.2).

(15) The terms of the agreement with the Gidja People must be provided by the KLC and included in the ILUA (clause 6.28).

(16) The definition of TOs in the ILUA must be reviewed by Kim Barber and agreed (clause 20).

(17) When community payments to Mundanyala cease.

(b) Management Plan Agreement

(1) The TOs who will execute the Management Plan Agreement on behalf of the broader traditional owner group must be identified.

(2) The Co-Chairs and Deputy Chairperson of the TO Relationship Committee must be identified (Management Plan Agreement clause 4.21).

(3) The cap on the amount of Annual Budget that Argyle will provide for the administration of the TO Relationship Committee must be agreed (Management Plan Agreement clause 4.58).

(4) The members of the TO Relationship Committee must be identified by Argyle and the TOs (Management Plan Agreement Schedule 2).

(5) The maximum amount of the annual payment that Argyle will contribute in respect of the cost of employing the Executive Officer must be agreed (Management Plan Agreement clause 4.69) and the basis for it set out in Schedule 5.

(6) The role and reporting line of the Executive Officer must be agreed.

(7) The identity of the archaeological assistants for the purpose of the Aboriginal Site Protection Management Plan must be provided.

(c) Outcomes of meeting on 31 May – 1 June 2004

The NNTT signed outcomes of the meeting of the Dawawang Committee and Argyle on 31 May / 1 June 2004 recorded as items 4 – 33 must be resolved.

(d) Michael Neal’s drafting comments of 7 July 2004

The matters raised in Michael Neal’s drafting comments on version 9 of the ILUA and version 11 of the Management Plan Agreement dated 7 July 2004 must be resolved.

(e) Other drafting issues

The parties acknowledge that drafting amendments, unrelated to the substance of the parties’ commitments recorded in Draft 9 of the ILUA and Draft 11 of the Management Plan Agreement, may also need to be made by agreement of the parties.

2.5 No further issues of substance

The parties agree that no further issues of substance will be pursued by the parties without the written agreement of the other parties.

2.6 Section 251 Native Title Act (NTA)

The parties acknowledge that once the final draft of the ILUA and the Management Plan Agreement have been agreed, the TOs will not be bound until they have authorised the making of the agreements consistent with section 251 of the NTA.

3 Framework Agreement

The Framework Agreement, signed by Argyle on 16 June 2003 and the KLC on 20 June 2003, is extended from 1 July 2004 until 24 September 2004, or the signing ceremony for the ILUA and Management Plan Agreement, whichever is the sooner.

If any party advises the other parties the ILUA and Management Plan Agreement will not be signed by 24 September 2004, then the Framework Agreement will lapse from the date of giving that advice, unless otherwise agreed.

4 Heritage Protection Agreement

The Heritage Protection Agreement, dated 15 May 2003 and signed on 10 June 2003, is extended from 1 July 2004 until 24 September 2004, or the signing ceremony for the ILUA and Management Plan Agreement, whichever is the sooner.
If any party advises the other parties the ILUA and Management Plan Agreement will not be signed by 24 September 2004, then the Heritage Protection Agreement will lapse from the date of giving that advice, unless otherwise agreed.

5 Backdating of Trust Payments

Argyle agrees that if the ILUA and the Management Plan Agreement are fully executed by the parties on or before 24 September 2004, then the Trust Payments referred to in clauses 6.9 to 6.17 of Draft 9 of the ILUA, will be calculated from 1 July 2004 rather than the date of signing of the ILUA.

Dated the 22nd of July 2004.

Schedule 2 - Agreement Area

This schedule shows the area where this agreement runs. The agreement runs over all of Argyle’s mining leases except for one small piece near the lake. The agreement also runs over Argyle’s grazing lease. There is a map showing the agreement area at the bottom of the schedule.

The Agreement Area as at the Commencement Date comprises the area of land and waters in:

(a) the Grazing Lease;
(b) Mining Lease 259SA granted under the Mining Act pursuant to the Diamond Act;
(c) Mining Leases 80/42, 80/43, 80/44, 80/45 and 80/114 granted under the Mining Act; and
(d) Miscellaneous Licences 80/1, 80/11, 80/24 and 80/26 granted under the Mining Act;

For the avoidance of doubt the agreement area includes the land comprised within LGE H/603415 and Reserve 41271, as set out in the map included in this schedule, but does not include Reserve 46647 or that portion of Mining Lease 80/42 in relation to which native title was determined to exist in *State of Western Australia v Ward* (WAG6001/1995).
Schedule 3 - Management Plans for the purposes of clause 3

If Argyle wants to look for more diamonds or dig up diamonds in new areas it has to follow the rules in some of the management plans. This Schedule says which management plans Argyle must follow if it wants to look for more diamonds or dig in new areas.

Management Plan 1 – Aboriginal Site Protection
Management Plan 8 – Devil Devil Springs
Schedule 4 - Historical Arrangements

This schedule shows all the old agreements between Argyle, Traditional Owners and Communities. It shows the Good Neighbour Agreement. It has the letters between Argyle, Woolah and Warmun community about money. It shows the letters about Signatories money. It shows the letter about that Decline tunnel.

The end of this schedule shows all of the money that Argyle had paid under these agreements.

We have put this in our new agreement so everybody can know what happened and there are no secrets.
Appendix ii

"Good Neighbour" Agreement - July 1980
AN AGREEMENT made the 20th day of JULY 1980.

BETWEEN

CRA Exploration Pty. Limited as Manager for and on behalf of the Ashton Joint Venture ("the Company")

AND

John, Toby, George Dixon, Evelyn Hall and Peggy Patrick ("the Signatories"), members of the Gidja and Mirriwung tribes of the Kimberley region

WHEREAS

A. The Company, pursuant to the provisions of the Mining Act 1904 of Western Australia, is the holder of Mineral and Dredging Claims over Smoke Creek near Lake Argyle. The extent of the Mineral and Dredging Claims is shown on the attached plan. For the purposes of this Agreement this area and the area of the Company's present interest which extends to an area one kilometre around the Mineral and Dredging Claims is referred to as "the Company's tenements".

B. Within the area of the Company's tenements are located sites identified by the Western Australian Museum with the following registration numbers - K1083 (Barramundi Hole), K1098 (Kilkaynim/Kunumburuntj), K1100 (Devil Devil Spring), and K1128 (Canteen Hole).

C. The Signatories John Toby, George Dixon, and Evelyn Hall, according to aboriginal custom, have the primary traditional interest and affinity with the area of the sites and the Signatory Peggy Patrick is recognised by John Toby, George Dixon, and Evelyn Hall as also having traditional interest with site K1098.
D. The Company's activities in the area of the Company's tenements will have a disturbing effect on areas of traditional interest to the Signatories but the Signatories have agreed to these activities because they are anxious to ensure that they provide for their future and that of their community and their descendents by developing facilities on Glen Hill Station and the Company has agreed to provide financial and other assistance in the development of those facilities.

E. The Signatories have approached the Company with a view to establishing and maintaining cordial and friendly relationships and to avoid the possibility of frictions that might occur through misunderstanding on both sides.

F. The Company and the Signatories recognise that at Glen Hill on 22 July 1980, a meeting comprising the persons listed in the First Schedule acknowledged the right of the Signatories to enter into this Agreement.

NOW THEREFORE IT IS AGREED as follows

1. The Signatories acknowledge that the Company is interested in continuing an exploration and mining programme within the Company's tenements. The Signatories agree to the conduct of these activities including exploration and mining programmes being carried out generally within the Company's tenements and, in particular, on and adjacent to those sites designated by the Museum as sites K1083, K1098, K1100, and K1128.
2. The Signatories agree that, if requested to do so by the Company, they will indicate to the Western Australian Museum and to interested Governmental authorities that they have no objection to the Company's continuing exploration activities within the Company's tenements nor to any possible subsequent mining development that may be undertaken within the Company's tenements by the Company at a later date.

3. The Company and Signatories acknowledge that the proximity of the Company's tenements to areas of traditional interest to the Signatories warrant the establishment of regular communication between them and to this effect both parties agree that they will establish such communication on a regular basis.

4. The Company undertakes to commence and complete the works listed in the Second Schedule within a period of 12 months from the date of this Agreement. The total cost of the works will be approximately $200,000.

In relation to those works listed in the Second Schedule which will be performed on Glen Hill Station, the Company agrees to first discuss details of the proposed work and the possibilities of residents of the Glen Hill community being involved in their implementation. The Company will endeavour, where practicable, to involve residents in the work, it being understood nevertheless that the Company has an obligation to complete the work within the programme and by the date set out above.
5. Subject to the Company first being free to commence exploration and mining programmes within the area of the Company's tenements, the Company agrees that during 1981, and in each year after 1981, the Company will provide assistance to the community resident on Glen Hill Station for capital works, equipment, and livestock improvements to the value of $100,000 in real terms.

Provided that if at any time because of the action of any third party the Company's ability to operate within the Company's tenements is restricted in whole or in part, or is prevented or curtailed, the Company's obligation to provide assistance under this clause may be abated or adjusted as the Company shall reasonably and in good faith determine.

6. The actual sum expended in any year pursuant to clause 5 shall be adjusted to take account of inflation comparing the Index Number as at 31 December 1979 with the Index Number as at 31 December in the year prior to the proposed year of expenditure. Index Number means the Index Number prescribed in the Consumer Price Index (All Groups) Perth.

7. The Company undertakes to ensure that if for any reason it should cease to be involved in exploring or mining for diamonds within the Company's tenements any successor Company to it which is presently a related Company or which becomes a related Company shall become a party to the Agreement with the Signatories in terms identical to the present Agreement to the effect that there shall be no interruption in the continuity of the present Agreement.
8. Subject to the proviso in clause 5, this Agreement shall continue for the term of the Company's existing Mineral and Dredging Claims or any tenements substituted therefor and any renewal thereof. The Company undertakes to ensure that if the Mineral and Dredging Claims or any tenements substituted therefor (including an extension thereof) shall be transferred to any third party the transferee shall enter into an agreement in terms identical to the unexpired portion of this Agreement. In addition, if none of the Signatories or members of the Gidja or Mirriwung tribes shall continue to reside at Glen Hill Station this Agreement will terminate in effect.

9. Provided the activities of the Company shall not be commercially or operationally disadvantaged, the Company shall use its best endeavours to provide employment for suitably qualified residents of Glen Hill Station.

10. All costs associated with the preparation of this Agreement, including all legal and solicitors fees, and the costs of all travel shall be borne by the Company.

11. The Company and the Signatories both agree that they will do all such things as are necessary and relevant for the proper performance of their respective obligations as are recorded in this Agreement.
IN WITNESS WHEREOF the parties hereto have signed this Agreement on the day and in the year hereinbefore mentioned.

The Chairman
Woolah Aboriginal Corporation
Dunham River Station
KUNUNURRA WA 6743

Dear Mr Brockman,

During our meetings with your community and legal representative at Turkey Creek over the past three months, we have been examining ways of helping your community, assisting in your relationship with the Mandangala Community and of maintaining good relations between us.

We have spoken at length with the Mandangala people and yourselves about maintaining assets on the station and assistance that we could give you to help with developing the property. At our last meeting with you at Turkey Creek on Tuesday, 23 June, you accepted our offer of immediate ongoing assistance to provide capital works for the Woolah Community pastoral operations.

This letter is to confirm that the Ashton Joint Venture will provide capital works to the value of $40,000 in 1981 and in each following year for your community at Dunham River. This amount will be indexed to cover inflation, and is in addition to our previously committed assistance. The continuing assistance is provided under the Ashton Joint Venture's good neighbour programme, the aim of which is to foster harmonious relations with our neighbouring communities. This assistance will be provided for so long as the Ashton Joint Venture remains free to conduct its mining operations throughout its Argyle tenements.

The provision of these capital works will be on the basis of the Ashton Joint Venture arranging for direct payment for all materials and works. The actual works will be carried out after discussion with your Council to establish an annual works programme.

In addition to this assistance, as agreed at our last meeting, ongoing talks will continue with your community to ensure that good relations are maintained.

I would appreciate your confirming that you are happy that this letter sets out your understanding of what was discussed at the meeting on 22 June.

Yours sincerely,

Dear «Title» «LastName»

Argyle Diamond’s initial offer to Traditional Owners for the new agreement.

I am the General Manager for Community Relations. Brendan Hammond introduced me to you at the big meeting in March and I again met some of you when the Rio Tinto Board from London came to the mine in April.

At the last big meeting you told Argyle that as Traditional Owners you want to be sure that there will be a strong agreement that benefits everyone before you can make a decision about the exploratory decline. (This has also been called the goanna tunnel). Argyle also wants a good agreement that provides respect and benefits to Traditional Owners.

To demonstrate Argyle’s commitment to a strong agreement that benefits everyone, Argyle offers the following to be part of the new agreement, whether the underground mine goes ahead or not. It is also very important that Argyle addresses your questions about water and we have been working hard with the KLC to do this.

I. Transfer of grazing lease

Argyle has a mining lease and a grazing lease. That grazing lease used to be part of the original station before the mine started. As part of the new agreement, Argyle will transfer the grazing lease to Traditional Owners. Argyle has sent letters to the KLC on 1 November 2002 and 31 March 2003 explaining how this might work. We will give you more information about this at the next big meeting.

The grazing lease will be transferred regardless of whether Traditional Owners give permission for the decline or underground mining to go ahead. We will jointly need to
approach the State Government to get agreement for the transfer of the grazing lease because Government approval is required for the grazing lease to be transferred to you.

2. Exploratory decline bonus

It is very important for the future of Argyle that the exploratory decline is finished on time to make sure that Argyle does not run out of diamonds and money before the underground mine is ready, and to make sure that the underground mine is made safe for everyone. If we are not able to achieve this together then it is probable that Argyle will close down sometime between 2007 and 2009.

If Argyle can finish the exploratory decline on time, that will benefit Argyle’s plans for an underground mine, which will mean that Argyle will continue to operate until at least 2018. Argyle believes that if Traditional Owners support Argyle building the exploratory decline on time then Traditional Owners should receive some benefit for that work getting done on time.

Argyle is asking that Traditional Owners give their support for the whole time it takes to build the decline. The most important first step in getting the exploratory decline built on time is the permission of the Traditional Owners to go ahead. If we cannot start the exploratory decline soon then we cannot finish the job on time. At the moment our plans are for the permission by Traditional owners to be given by 27 June 2003 in order for the exploratory decline to be completed by 31 March 2005.

This principle is the same as Argyle paying a contractor for completing the job on time. If we are together able to achieve completion on this date of 31 March 2005 then Argyle will pay the Traditional Owners $500,000.

If the decline is delayed, but not because of anything the Traditional Owners do, Argyle will still pay the $500,000.

This payment will be made to a trust when the exploratory decline is completed. It is up to you how this payment is best put to use. This payment will be made even if the underground mine does not go ahead.

The exploratory decline payment will be part of the total benefits package in the new agreement.

Argyle hopes that these commitments show that Argyle is serious about wanting a strong agreement that will benefit both Traditional Owners and Argyle.
We look forward to hearing your ideas about these offers and what you think should be in a strong agreement that benefits everyone.

Attached to this letter is a list of all the people this letter has been sent to.

Yours sincerely

In summary only, those persons are members of the following estates (dawang): Mandangala/Tiltuwam, Balaburr, Bilbidjing, Dundun, Neminuwarlin and the Yunnur/Yalangga.

(c) The KLC through its staff and contracted consultants has attended a series of meetings with the native title holders and has confirmed that there is a single process of decision making that, under the traditional laws and customs of the native title holders, must be complied with in relation to authorising things such as making the agreement. That process is set out in detail in the Certification Report authored by Kim Barber, Hilary Rumley and Michael Neal dated September 2004 ("the Certification Report") which forms part of these reasons for certification, and is enclosed;

(d) The Certification Report sets out details of, amongst other things:
   - the native title holders;
   - the relevant decision making process; and
   - meetings at which the relevant people effected the decision making process; and

(e) The KLC organised meetings held at Second Gorge on 6 September 2004, at Warmum on 8 September 2004 and at Kununurra on 10 September 2004. Notice of those meetings was distributed widely. The meetings were well attended, including by many people from each of the relevant dawang set out above. Details about those meetings, including who attending them, is included in the Certification Report. At those meetings, the native title holders authorised the making of the agreement in accordance with their traditional decision making process.

B. The parties have reached an agreement as to the terms of a determination of native title to be made in relation to the land and waters of the whole of the Claim Area (Determination Area). The Determination Area is described in Schedule 1.

(a) the determination does not affect the validity of the other interests;

(b) in relation to the other interests to the extent that the other interests are inconsistent with the continued existence, enjoyment or exercise of the native title rights and interests, the native title continues to exist in its entirety, but the native title rights and interests have no effect in relation to the other interests to the extent of the inconsistency during the currency of those other interests. If those other interests are later removed or otherwise cease to operate, either wholly or partly, the native title rights and interests will again have full effect, wholly or partly as the case may be; and

Schedule 12 - Description and Map of Current Mining Area

There is an area in the Argyle Mining Lease called the Current Mining Area where Argyle is already mining or plans to mine. Under this agreement Traditional Owners say that this area is cleared for mining or anything to do with mining. This schedule has a description of the Current Mining Area and a map showing those places that make up the Current Mining Area.

Description of Current Mining Area

The Current Mining Area means the areas of land and water shown on the Current Mining Area map attached in this Schedule, including:

☐ The AK1 Designated Area Fence (Restricted Access)

The AK1 process plant, the explosives plant and magazine, MKIII plant, workshops, parking areas, recovery tailings stockpile, offices, the exploratory decline entrance, laydown areas for storage of equipment, sheds, back-up generators, mess facilities, showers and toilet facilities, change rooms, bulk fuel tanks, water tanks, a sewage treatment tank, landfills, pipelines, powerlines, telephone cables, pumps, standpipes, dams, sumps, roads and tracks, culverts, signs, survey stations and environmental monitoring equipment.

The Alluvial Designated Area Fence (Restricted Access)

The Alluvial process plant, the recovery tailings plant, recovery tailings stockpiles, exploration sample stockpiles, MKIII plant, workshops, parking areas, offices, laydown areas for storage of equipment, sheds, back-up generators, mess facilities, showers and toilet facilities, environmental monitoring equipment, change rooms, bulk fuel tanks, water tanks, septic tanks, powerlines, pipelines, telephone cables, pumps, dams, sumps, roads and signs.

Outside Designated Areas

—— 11kV powerlines.
—— 33kV powerlines.
—— 132kV powerlines.
——- Fire water pipes.
Raw water pipes.

Potable water pipes.

Sewage pipes

Communication lines e.g. phone lines

Fibre optic cables

This is the area where a new tailings dam will be built to store tailings after the existing tailings dam is full. It is also the Reclaim Pond 3 site, which will capture water from the AK1 tailings dams’ underdrains for recycling.

This is another possible new tailings dam sites if the preferred area is not available.

These show existing tailings dam and reclaim pond sites. These include the AK1 tailings dam (still in use), Alluvial tailings dam 1 and 2 (no longer being used and in the process of being rehabilitated) Alluvial tailings dam 3 (no longer being used, but not yet rehabilitated), Alluvial tailings dam 4 and reclaim pond (still has some use, receiving fine tailings from the recovery tailings processing plant) and Alluvial tailings dam 5 and reclaim pond (no longer being used, but not yet rehabilitated).

This area is the current extent of the AK1 pit and waste dumps.

This area is the final limit the AK1 waste dumps will get to when mining is finished. This area includes a bund around the base of the dumps to prevent material eroded from the dumps washing into the environment. The new Designated Area fenceline is the boundary of the dumps. On the north western side of the dumps near Devil Devil Spring, the dumps will not go out any further, apart from building the bund to prevent dirt and rocks being washed toward the spring and creek.

These are the roads and tracks that may be used only by mining people, or others that may be used by mining people, Lissadell station people and visitors. The main roads at Argyle are the ones that run from the boom gate at Wandarrie to the mine, the road that runs from the mine to the Airport, and the road that runs from the Airport road to the Argyle village. These roads are sealed. There are also sealed roads that are service roads in the light industrial area near the mine, and in the process plant area. The main unsealed roads, which are used mainly by mining people, are the road to Gap Dam from near the water treatment plant near the village, the road from Gap Dam to the Alluvial Plant, and roads to the sewage lagoons at the village and Wandarrie. The unsealed road from the airport to Lake Argyle is used by mining people, Lissadell station people and visitors. There are a lot of minor tracks that are used by mining people for surveys, monitoring or exploration. Haul roads are mainly in the AK1 pit and are used only by mining people.

These are alluvial resource blocks that were cleared by Traditional Owners on 6th August 2004. These are areas where we know there are diamonds, but they have not yet been mined and it may be uneconomical to mine them.
These are alluvial resource blocks that have already been mined and rehabilitated.

These are legacy sites, inherited from pre-Argyle exploration etc.

This is the lease boundary.
Schedule 13 – Land Trust

Under this agreement Argyle will hold the Grazing Lease in a Trust so that Traditional Owners can get back full strength native title. This schedule is a copy of that Trust.

**NB:** All costs are EXCLUSIVE of GST
When Argyle pays Traditional owners for different things, it has to take out tax from this money, to give to the government. This whitefellas tax law says that Argyle has to take out nearly half of the money from this pay unless Traditional Owners make a promise. They have to promise Argyle that they are not running a business to get this money. This schedule shows the kind of promise that Traditional Owners have to make to Argyle so no money gets taken out of their pay for tax.

Under the pay as you go legislation and guidelines produced by the Tax Office I provide you with a written statement that explains why I have not quoted an ABN for the current and future supply of goods and services to you.

Tick the appropriate box

- The supply is made to you in my capacity as an individual, and the supply is made in the course of an activity that is a private recreational pursuit or hobby

- The supply is made to you in my capacity as an individual, and the supply is wholly of a private or domestic nature for me

- I (or the supplier that I represent) am/is a non-resident who is not carrying on an enterprise in Australia

- The whole of the payment that I (or the supplier that I represent) will receive for the supply is exempt from income tax

- I (or the partnership that I represent) have no reasonable expectation of profit or gain from the activity undertaken and consider that I (or the partnership that I represent) do not meet the definition of enterprise for tax purposes

For this reason I am not quoting you an ABN. You should not withhold an amount from the payment you make to me for the supply. I agree to advise you in writing if circumstances change to the extent that this statement becomes invalid.
