

Schedule 3

Item 1 Description of Agreement Area

A. External boundary description

Yulluna People and Starcross ILUA

External boundary description

The agreement area covers all the land and waters within that part of Lot 5364 on PH1891 (Starcross Pastoral Holding) west of a line described as:

Commencing at the intersection of the western bank of Maggie Creek and the

northern boundary of Lot 5364 on PH1891 (Starcross Pastoral Holding); then generally south-easterly along banks of that creek to Longitude 140.553633° East; then generally southerly and generally south-easterly passing through the following

coordinate
points:

Longitude° (East)	Latitude° (South)
140.558182	21.563685
140.565037	21.595185
140.569749	21.636886
140.562114	21.667506
140.555417	21.687947
140.563388	21.716041
140.564307	21.751031
140.585267	21.768739
140.606406	21.793218

The agreement does not cover any land and waters not under claim by the native title determination application QUD189/2010 Yulluna People (QC2010/001) as accepted for registration and amended on 11 December 2012.

Note

Data Reference and source

- Agreement boundary data compiled by National Native Title Tribunal based on data sourced from Department of Natural Resources and Mines Qld (August 2013).

- Cadastre data sourced from Department of Natural Resources and Mines Qld (August 2013).
- Rivers / Creeks based on cadastral data where possible, else 1:250k vector data © Commonwealth of Australia sourced from Geoscience Australia (2003).

Reference datum

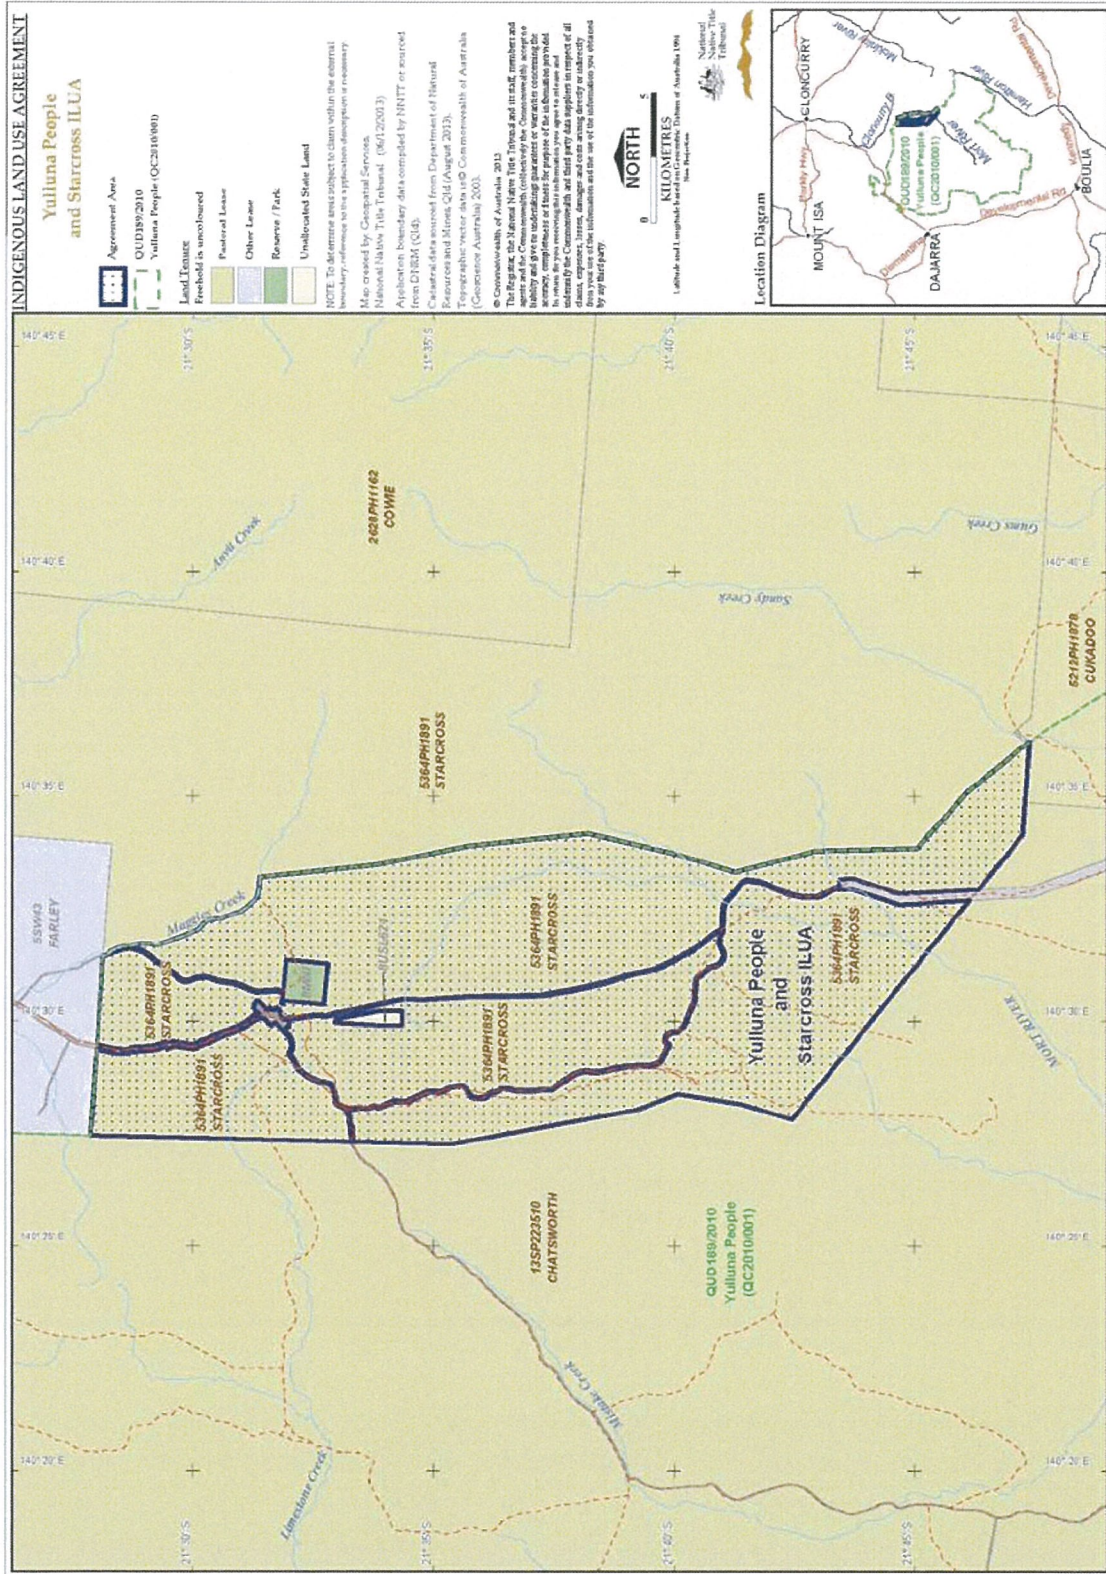

Geographical coordinates have been provided by the NNTT Geospatial Services and are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees and are based on the spatial reference data acquired from the various custodians at the time.

Use of Coordinates

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome to the custodians of cadastral and topographic data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.

Prepared by Geospatial Services, National Native Title Tribunal (06 December 2013)
