**Reference datum**

Geographical coordinates have been provided by the NNTT Geospatial services and geographical coordinates are referenced to the Geocentric Datum of Australia 1994 (GDA94), in decimal degrees.

Watercourses and waterbodies referenced to 1:250,000 Topographic Mapping Series 3 – sourced from Geoscience Australia.

**Use of Coordinates**

Where coordinates are used within the description to represent cadastral or topographical boundaries or the intersection with such, they are intended as a guide only. As an outcome of the custodians of cadastral and topographical data continuously recalculating the geographic position of their data based on improved survey and data maintenance procedures, it is not possible to accurately define such a position other than by detailed ground survey.
